Dear [redacted] B

I'm enclosing the magazine you left in the car. I hope you got a train without a long wait.

My wife suggests that you bring your wife with you when you come west. We will make your visit enjoyable.

Here is the statement you requested:

Time spent on project April 18 to June 4 --
153 hours @ $5.00 per hour ---$765.00.

Will you send the check to my account at the [redacted] E

C [redacted] said he would take care of the chemicals etc..

Cordially yours,

MEMORANDUM FOR THE RECORD

SUBJECT: Project MKULTRA, Subproject 1

1. The scope of this research program is the isolation and characterization of the alkaloids of Impomea Sidafolia Choisy (Rivea Corymbosa) in order to determine their activities as agents affecting the central nervous system of human beings.

2. Numerous reports in the botanical and biological literature attribute powerful hypnotic and mentally disorienting effects to the injestion of this plant. The active materials have never been purified and characterized on a scientific basis. The Chemical Division was provided with samples of the seeds of th[illegible] plant by the Chief, TB/I&S and requested to conduct the investigation as outlined here and in the attached proposal.

3. Dr. [redacted], the investigator who was selected to perform this work, is well qualified by both interest and experience in this field of chemistry and has available the facilities to carry out the project. He was recommended to the division on this basis by Prof. [redacted]

4. The total cost of this investigation for the period indicated in the research proposal will not exceed $2000.00.

INVESTIGATION OF THE SEED OF IMPOMOEA SIDAEFOLIA CHOISY

I. It will be the purpose of this investigation to:

(a). Make a thorough search of the literature to determine the nature of all work done on this specimen, i.e. Impomoea Sidaefolia Choisy.

(b). To chemically examine the seeds and their extracts for alkaloidal material, and to isolate the alkaloidal fraction in as pure a state as is possible.

(c). To determine a simple method of isolation and purification of the alkaloid.

(d). If items (a), (b) and (c) are completed before June 1, 1953, or if this work is continued, to carry out experiments designed to determine:
(1). The physiological action
(2). The chemical nature of the alkaloid.

II. The time spent on the investigation will not exceed 400 hours for the period ending June 1, 1953.

III. Funds should be available for such items as pure organic solvents and reagents, special reagents and adsorbants, compressed nitrogen, allowances for breakage and fabrication of small glass items and a small allowance for possible photocopying or microfilming service. The total cost of these items should not exceed $200.00 for the period ending June 1, 1953. (This figure does not include an allowance for overhead.)

IV. The total cost of this investigation for this period will not exceed $2000.00
