Project KUBARK, Subproject 100

Date Initiated: 1 December 1959

Date Expires: 30 November 1961

Funds-current year: $30,000

Purpose: To provide for investigations into soil microorganisms and methods by which maximum information can be obtained from soil samples. To provide for analysis of soil and other material related to the CW/BW activities detection program and evaluation and interpretation of the resultant data.

Status: This is a continuing project. The preliminary phases have been completed. Data providing base line microbiological information for certain specific CW/BW activity situation has been obtained and is currently being evaluated. Base lines are being extended and enlarged to obtain greater depth to improve interpretation accuracy.

MEMORANDUM FOR : THE RECORD

SUBJECT : MKULTRA, Subproject 100

1. The purpose of subproject 100 is to continue support investigations at the [redacted] into soil microorganisms and methods by which maximum information could be obtained from samples of soil. This project is an important link in the entire problem of detection of CW activities in [redacted]

2. [redacted] will monitor this project. [redacted] is the principal investigator.

3. The cost of this program for the coming year is $47,309.00. To this sum must be added $1,892.40 representing a four per cent service charge to the [redacted] making the total amount for one year $49,201.40. The [redacted] will function as cutout and cover for this grant. The cover title of the project is [redacted]

4. Total cost of the project for a period of one year will not exceed $49,201.40. Charges should be made against

[redacted]

100-4

[redacted]

Allotment No. 4125-1390-3902.

B 5. The [redacted] has requested the University to submit a summary accounting of monies received and to return any unexpended grant funds at the end of the project year.

6. It was mutually agreed that documentation and accounting for travel expenses which are reimbursable by the University shall conform with the accepted practices of that institution.

C 7. [redacted] and his associates are cleared through SECRET and are aware of the true purpose of the program.

8. Title to any permenant equipment purchased by funds granted the University shall be retained by them in lieu of higher overhead rates.

December 14, 1965

[redacted] C

[redacted] A B

Dear [redacted] C

We wish to request that the time period of the grant made to us for the year 1965 entitled [redacted] be C/B extended without additional funds for 12 months until December 31, 1966.

The reason for the extension is that the work on this project will be continued under different sponsorship and the amount of approximately $7300 remaining will be of significant help to us to continue the program during the expected delay in processing the new proposal.

Sincerely yours,

[redacted] C

[redacted] C

[redacted] C

A [redacted] C/75D/BB, sent cy of this letter
C to [redacted] ofc. on 15 April 1966, and
A [redacted] said she would send reply extending to 31 Dec 1966 in time only.

[redacted] B

Dear Sirs:

We would like to apply for a continuation of our grant for one year to begin January 1, 1964, for support of our studies on [redacted]. The studies are under the direction of [redacted], and follow the objectives and methods as set forth in our grant proposal of December 4, 1962. B/C

We have included a proposed budget of $47,309 to cover the period from January 1, 1964 to December 31, 1964. This amount will support our present study on approximately 30 soil samples per month plus research on detection of soil enzymes. Overhead has been calculated at 20 per cent of direct costs. This budget has the approval of our [redacted] C

Attention: [redacted] a
Executive Secretary-Treasurer

Gentlemen:

The financial statement set forth below reflects the income received and costs incurred in connection with the [redacted] B entitled [redacted] B for the period January 1, 1960 through December 31, 1962.

I. Total Grant Funds

a. Received	$117,360.00
b. To be Received (Fourth Quarterly payment 1961)	7,500.00
	$124,860.00

II. Less Expenditures

	1/1/60-12/31/61	1/1/62-12/31/62	Total	
a. Salaries	$29,102.00	$17,025.00	$ 46,127.00	
b. Wages	6,836.70	5,209.90	12,046.60	
c. Laboratory Installation	24,567.55	432.85	25,000.40	
d. Equipment	4,624.64	4,129.36	8,754.00	
e. Supplies & Materials	8,378.06	2,906.57	11,284.63	
f. Travel	947.11	742.83	1,689.94	
TOTAL DIRECT COST	74,456.06	30,446.51	104,902.57	
OVERHEAD	9,977.70	8,671.61	18,649.31	
TOTAL	$84,433.76	$39,118.12	$123,551.88	123,551.88

III. Balance $ 1,308.12

I have examined and approved the submitted expen[redacted]

[redacted] A
Chief
TSS/Chemical Division

Date: 2/25/63

100-22

Overhead for the period January 1, 1960 through December 31, 1961 has been computed at 20% of $49,888.51 ($74,456.06 total direct cost less $24,567.55, Laboratory Installation costs which are not subject to overhead). The overhead for the period January 1, 1962 through December 31, 1962 has been computed at 39% of Salaries and Wages ($22,234.90).

According to our records the fourth quarterly payment of $7,500.00 for the year 1961 has not been received. Please advise.

Very truly yours,

[redacted]

Controller

C [redacted] B

C Dear [redacted]

Enclosed herewith you will find our check in the amount of Seven Thousand Five Hundred Dollars ($7500.00) drawn on the [redacted] B

This check represents the fourth quarterly payment of our research grant to [redacted] B, for the study of effects of pesticides on biological activities in soil.

We are sincerely sorry for the oversight of not forwarding this check when the same became due during 1961. We hope this has not caused you a great deal of inconvenience on your part.

Very truly yours,

[redacted] C

Executive Secretary-Treasurer

PROJECT CRYPTO : MKULTRA #100

GRANTEE : [redacted] C/B

PRINCIPAL INVESTIGATOR : [redacted] C

DATE RENEWED : 1 January 1964

During the previous year this project provided for us a continuation of effort to derive information concerning CW and Rocket Site activity from soil samples, based on the ecological effects of these chemicals on microbial populations. It was the first year which saw a definite, easily recognizable change in the biosphere of the soil related to a specific class of compounds.

Several thousand individual analyses were made by [redacted] C group on soil from five experimental plots. Concurrent with these routine analyses several new approaches were studied by [redacted] C One of these new concepts, a radical departure from our original approach, is believed to be a breakthrough for this program based on preliminary data. The approach depends on an [redacted] concept which, if proved accurate, offers a much greater tool for deriving information from soil than we have ever had before.

We have one experiment underway which should conclude the necessary effort for establishing feasibility of the original approach. This experiment should be concluded by June 1964. Parallel to this and for the remainder of the contract year (Jan. 1 to Dec. 31, 1964) [redacted] has C agreed to pursue the [redacted] concept.

H

[redacted]

[redacted]

B 5. The [redacted] has requested the University to submit a summary accounting of monies received and to return any unexpended grant funds at the end of the project year.

6. It was mutually agreed that documentation and accounting for travel expenses which are reimbursable by the University shall conform with the accepted practices of that institution.

7. The requirement for a six months' informal accounting on the part of the principal investigators is waived.

C 8. [redacted] and his associates are cleared through SECRET and are aware of the true purpose of the program.

[redacted] B

#369
1-23-63

December 4, 1962

B [redacted]

Dear Sirs:

We would like to apply for a grant for one year to begin January 1, 1963, for support of our studies on [redacted] B/C The studies are under the direction of [redacted] and are designed to evaluate existing methods and to develop new methods for defining the numbers and biological activities of various segments of the soil microbial population. These methods will be used in determining the immediate and long range effects on microbial populations of the various insecticides, herbicides and other poisons which may find their way into the soil.

The methods under study include the determination of total numbers of soil bacteria by both plating and microscopic methods as well as determinations of the relative numbers of Gram negative, spore-forming, salt tolerant, nitrifying, denitrifying and nitrogen-fixing bacteria. The relative numbers of actinomycetes and fungi also are being evaluated. Methods are being developed for ascertaining the overall dehydrogenase activity of the soil microflora. The activities of individual soil enzymes such as urease, phosphatase, etc., also are under investigation.

We have included a proposed budget of $45,403 to cover the period from January 1, 1963 to December 31, 1963. This amount will support our present study on approximately 30 soil samples per month plus research on detection of soil enzymes. Overhead has been calculated at 20 per cent of direct costs. This figure has the approval of our [redacted] C

C [redacted]

Sincerely yours,

[redacted] C

B [redacted]

[redacted] B

November 6, 1961

C
B [redacted]

C Dear [redacted]

I am requesting the renewal of the grant on the effect of pesticides on biological activities in soil from the [redacted] B for the sum of $41,360 to begin January 1, 1962 for one year.

The increase over last year is due to increasing expenses of personnel and a request from our business office to calculate indirect costs as 39% of salaries. This is the standard rate arrived at for research operations at [redacted] during the last year. B

The items in the proposed budget and the change in indirect costs have been discussed with your representative and are approved by him.

The increase in the salary item is already reflected in our present operation costs for this present year so that we will not have sufficient funds to meet our payroll for the last month of this year's grant; that is, January 1962. Therefore, on the advice of your representative we are requesting renewal of the project as of January 1, 1962 instead of February 1, 1962. Any unexpended funds that are on the books as of January 1, 1962, will be duly reported by our business office. We understand that the amount will be subject to deduction from one of the payments made by the B [redacted] during the coming year.

If you have questions to direct to me, do not hestitate to call at

B [redacted]

Sincerely yours,

[redacted] C

No. 100-32

300 WORD PROJECT SUMMARY

Date: December 16, 1959

Title of Project: [redacted] B/C

Name of Principal Investigator: [redacted] C

Institution to Which Principal Investigator is Attached: [redacted] B

SUMMARY OF PROPOSED PROJECT: (300 words or less—See Sec. XII, Par. 1., Statement of Policy)

The past twenty years has brought about at least a ten-fold increase in the sale and use of organic pesticides including insecticides, herbicides and various fungicides, with new types being introduced each year. The wide-spread use of such chemical additives in soils raises several important questions.

1) Is there a tendency for certain of these compounds to accumulate in soil following repeated use year after year?
2) Do some organic compounds undergo degradation to products that may accumulate or reach a level that is physiologically active?
3) Is such an accumulation likely to have a measurable effect on soil fertility or on crops grown on these soils?
4) If such an accumulation occurs, does it present a possible danger of transfer to animals and man?

The purpose of this investigation is to attempt to get answers to these questions by examining the microflora and biological activities of soils with a history of treatment by various pesticides versus control or untreated soils. It is hoped that a series of sensitive markers, either microbiological or biochemical, can be developed in order to help the possible accumulation of such residues.

During the initial year of this proposed research the principle objectives will be:

1) To determine satisfactory techniques for the biochemical and microbiological examination of soils that have received organic chemical additives used in controlling insects, weeds, fungi and other pests.
2) To determine the effects of the addition of specific pesticides on the normal biological activities in representative soils.
3) To determine the effect of soil microorganisms on organic pesticides with particular attention to the possible accumulation of derivatives that may be toxic to animals and man.

MEMORANDUM FOR THE RECORD

SUBJECT: MKULTRA, Subproject 100

1. The purpose of subproject 100 is to continue support investigations at the [redacted] into soil microorganisms and methods by which maximum information could be obtained from samples of soil. This project is an important link in the entire problem of detection of CW BW activities in [redacted]

2. The [redacted] has organized a laboratory which will examine samples of soil and other material received in the CW BW detection program. These samples will be analyzed for the maximum microbiological information. This information will then be prepared in a report which will be of maximum benefit to the intelligence analysts.

3. [redacted] will monitor this project. [redacted] and [redacted] are the principal investigators.

4. The cost of this program for the coming year is $41,360.00. To this sum must be added ($1,654.40) representing a four per cent service

[redacted]

100-40

charge to the [redacted], making B

the total amount for one year $43,014.40. The [redacted] will B

function as cutout and cover for this grant. The cover title of

the project is [redacted] B/C

[redacted] B/C

5. Total cost of the project for a period of one year will not exceed $43,014.40. Charges should be made against Allotment No. 2125-1390-3902.

B 6. The [redacted] has requested the University to submit a summary accounting of monies received and to return any unexpended grant funds at the end of the project year.

7. It was mutually agreed that documentation and accounting for travel expenses which are reimbursable by the University shall conform with the accepted practices of that institution.

8. The requirement for a six months' informal accounting on the part of the principal investigators is waived.

C 9. [redacted] and his associates are cleared through SECRET and are aware of the true purpose of the program.

DRAFT
7 December 1960

MEMORANDUM FOR THE RECORD

SUBJECT: MKULTRA, Subproject 100

1. The purpose of subproject 100 is to continue support investigations at the [redacted] B into soil microorganisms and methods by which maximum information could be obtained from samples of soil. This project is an important link in the entire problem of detection of BW activities [redacted] F

2. The [redacted] B has organized a laboratory which will examine samples of soil and other material received in the BW detection program. These samples will be analyzed for the maximum microbiological information. This information will then be prepared in a report which will be of maximum benefit to the intelligence analysts.

3. [redacted] B will monitor this project. Two principal investigators, who have been cleared are actively conducting the work in the laboratory.

4. The cost of this program for the coming year is $30,000.00. To this sum must be added $1,200.00 representing a four per cent service charge to the [redacted] B making the total amount for one year $31,200.00. The [redacted] B will function as cutout and cover for this grant. The cover title

[redacted]

100-48

of the project is [redacted] B/C

[redacted] B/C

5. Total cost of the project for a period of one year will not exceed $31,200.00. Charges should be made against Allotment No. 1125-1309-3902.

B 6. The [redacted] has requested the University to submit a summary accounting of monies received and to return any unexpended grant funds at the end of the project year.

7. Title to any permanent equipment purchased by funds granted the University shall be retained by them in lieu of higher overhead rates.

8. It was mutually agreed that documentation and accounting for travel expenses which are reimbursable by the University shall conform with the accepted practices of that institution.

9. The requirement for a six months' informal accounting on the part of the principal investigators is waived.

C 10. [redacted] and his associates are cleared through SECRET and are aware of the true purpose of the program.
