C

Project MKULTRA, Subproject 116

Date Initiated: 15 June 1960

Date Expires: 1 July 1962

Funds-current year: $25,000.00

Purpose: This project provides consultative services and location together with covert procurement of special chemical products not available through other channels. It provides for a facility and necessary research and pilot and plant studies required to produce special chemicals of TSD interest. Special activities are undertaken on request.

Status: This is a continuing project. A production facility is being maintained in a ready condition to meet TSD's needs for special chemicals. A practical decontamination study has been designed for E-3. This will be undertaken and a full report prepared. A full comprehensive report on tooling up and large scale production of ortho chlorobenzalmalononitrile has been prepared for TSD.

INSTRUCTIONS

1. If funds, in the form of other than U.S. Dollars were on hand, received, or disbursed during the accounting period, all pertinent data, i.e., rate, method of acquisition, etc., must be shown. If advances have been made to third parties, enter the total of such advances outstanding at the beginning of the accounting period on line 1a.

2. If more space is required to explain receipts, prepare receipt form, number and attach hereto. In every case, completely identify the source of receipts.

3. Attach a voucher for each expenditure and assign a number thereto in numerical sequence. The voucher may be the receipt obtained from the payee. When a receipt is not obtained, prepare a certificate and attach as a voucher. When space on form is not sufficient to list all vouchers, prepare a listing on a separate sheet and enter the total under item 3. If advances to third parties are outstanding at the close of the accounting period, attach an itemized list and enter the total on line 3a.

4. Final credit will not be given for disbursements which are advances to be accounted for. When accounting for advances are obtained, list as expenditures or refund of cash, as appropriate.

5. Total receipts entered on the line "Total to Account For" must agree with the total disbursements entered on the line following "Total Accounted For."

24 January 1964

MEMORANDUM FOR : THE RECORD

SUBJECT : MKULTRA, Subproject 116

1. The purpose of this subproject is to provide additional funds whereby TSD/BB may utilize the services of [redacted] C in connection with Project MKULTRA 116.

2. The services fall into the following categories:

a. Consultation with TSD on development of specially designed services on programs of direct interest to TSD/BB.

b. Location and covert procurement of special chemicals and other special products not available through other channels.

c. At the specific request of TSD obtain chemical production procedures and arrange for the covert production of special organic compounds.

d. On specific request spend time in certain cover activities of benefit only to TSD.

3. Mr. [redacted] C as President of the [redacted] B has direct entree into foreign and American chemical sources and manufacturers and can

[redacted]

[redacted]

[redacted]

carry out special activities in a completely covert manner.

4. The estimated additional cost of this program is $25,000.00. Charges should be made against Allotment Number 4125-1390-3902. Reimbursement will be made for services rendered.

5. Accounting for funds advanced and any equipment under this subproject will be in accordance with accounting procedures established by the auditor.

6. Mr. [redacted] has been granted a SECRET approval with this Agency.

Type of Contract MKULTRA Date Initiated July 1963

Cost $25,000.00 FY 64 present
$10,000.00 FY 64 Completion Date January 1965

Purpose: The project provides consultative services together with covert procurement of special chemical products not available through other channels. Special services are undertaken on request. Funds requested will provide for location and obtaining of a special compound required for operational use. Research undertaken to develop a synthetic route for the production of K-6 in the laboratory and work the laboratory procedure into a plant procedure which will be tested to establish its suitability for production.

Status: A continuing project. A facility is being maintained in ready condition to meet TSD's needs for special chemicals. A new facility producing special behavioral control materials and dissemination systems has been made available. Laboratory research has progressed to the point where a process description has been written up, tested and placed on a ready for use condition.

Requirement: Internally generated in TSD. Reaffirmed statements from various Agency control elements within DD/P including FI, CA and LSS that a requirement exists for selected operational materials.

[redacted]

[redacted]

116-10

PROJECT CRYPTO : MKULTRA # 116

INVESTIGATOR : [redacted] C

DATE RENEWED : 1 July 1963

During the present year, Mr. [redacted] has continued to provide his services and personnel on the location and covert procurement of special chemicals not available thru normal commercial channels and to satisfy ad hoc requirements for special chemicals of a very sensitive nature. He has provided professional services and technical advise relating to the feasibility of developing laboratory and plant processes for certain specialized chemicals having activities of particular interest to TSD. On twelve occasions he has provided professional advise and assistance on programs of direct interest to TSD/BB. These services were provided unstintingly and required a considerable expenditure of time and effort.

A listing of other efforts of direct concern to TSD/BB and critical to developing and/or maintaining a TSD operational capability is given below.

A. Under this subproject a sizeable amount (192 ounces) of I-4 was located and obtained. The compound has unique properties which make it of outstanding usefulness in certain covert harassment and sabotage operations. Through the [redacted], he had access to the sole U.S. source of supply and because of his chemical interests had a plausible explanation for the supplier. B

B. Mr. [redacted] thru the facilities of one of his companies contacted the sole source of supply for a rare chemical (S-273) needed for a TSD/BB D&E project and obtained it through this company. C

C. Compound K-6 is a material unavailable thru any commercial channels and hitherto produced and furnished to TSD only in small quantities. It has unique properties in two D&E investigation areas. Because this compound is ready for operational use, Mr. [redacted] was consulted as to the feasibility of establishing a covert production capability for this compound in larger amounts. He had approximately 5 kg of material produced. This is being used in certain trials and in assessment of selected delivery systems. This production was accomplished in an expeditious manner in a C

Company owned by Mr. [redacted] The studies indicated that covert plant production capability was feasible.

It was determined internally by TSD that any maximum Agency needs for K-6 at any one time would be met with a limited plant production capability not in excess of 500 kg. Mr. [redacted] arranged to have his company R&D personnel study a five step synthetic procedure and compare the yields with those indicated in the literature. This was done and a plant procedure for the manufacture of K-6 was projected based on their semi-pilot investigations. A detailed process description suitable for the production of 500 kg batches of K-6 was prepared and furnished TSD. With this process developed, TSD now has a covert stand by capability for the production of K-6 which will be immediately responsive to any Agency needs.

D. TSD/BB recently uncovered a new chemical material, compound F-267. This material has been demonstrated to have properties of potential value in certain clandestine operations. Because of the nature of the material it was important that a supply source be established on a covert basis for use in D&E investigations and to establish a capability to meet any further ad hoc needs. Following technical discussions, Mr. [redacted] arranged to have his Research Staff investigate the synthetic routes contained in the chemical literature and then select and develop the most efficient process and provide TSD with 1. kg of material of highest purity to meet our requirements. An efficient synthetic route for producing F-267 has been developed and tested. 1. kg of the material has been produced and has been introduced into the TSD/BB D&E evaluation programs.

Mr. [redacted] has demonstrated an outstanding capability to satisfy certain requirements placed upon him. He has continued to provide without question or explanation invaluable services in meeting many sensitive requirements. During the coming year, the contributions of Mr. [redacted] to the Agency will be on an ad hoc basis. He will continue to assist in a professional capacity, to provide entre into foreign and American chemical sources and aid in special activities in a completely covert manner.

116-10

Receipt is hereby acknowledged of Treasurer's Check No. FE 30384, dated December 31, 1963, drawn on the [redacted] payable to Mr. [redacted] in the amount of $4,000.00.

INSTRUCTIONS

1. If funds, in the form of other than U.S. Dollars were on hand, received, or disbursed during the accounting period, all pertinent data, i.e., rate, method of acquisition, etc., must be shown. If advances have been made to third parties, enter the total of such advances outstanding at the beginning of the accounting period on line 1a.

2. If more space is required to explain receipts, prepare receipt form, number and attach hereto. In every case, completely identify the source of receipts.

3. Attach a voucher for each expenditure and assign a number thereto in numerical sequence. The voucher may be the receipt obtained from the payee. When a receipt is not obtained, prepare a certificate and attach as a voucher. When space on form is not sufficient to list all vouchers, prepare a listing on a separate sheet and enter the total under item 3. If advances to third parties are outstanding at the close of the accounting period, attach an itemized list and enter the total on line 3a.

4. Final credit will not be given for disbursements which are advances to be accounted for. When accounting for advances are obtained, list as expenditures or refund of cash, as appropriate.

5. Total receipts entered on the line "Total to Account For" must agree with the total disbursements entered on the line following "Total Accounted For."

INSTRUCTIONS

1. If funds, in the form of other than U.S. Dollars were on hand, received, or disoursed during the accounting period, all pertinent data, i.e., rate, method of acquisition, etc., must be shown. If advances have been made to third parties, enter the total of such advances outstanding at the beginning of the accounting period on line 1a.

2. If more space is required to explain receipts, prepare receipt form, number and attach hereto. In every case, completely identify the source of receipts.

3. Attach a voucher for each expenditure and assign a number thereto in numerical sequence. The voucher may be the receipt obtained from the payee. When a receipt is not obtained, prepare a certificate and attach as a voucher. When space on form is not sufficient to list all vouchers, prepare a listing on a separate sheet and enter the total under item 3. If advances to third parties are outstanding at the close of the accounting period, attach an itemized list and enter the total on line 3a.

4. Final credit will not be given for disbursements which are advances to be accounted for. When accounting for advances are obtained, list as expenditures or refund of cash, as appropriate.

5. Total receipts entered on the line "Total to Account For" must agree with the total disbursements entered on the line following "Total Accounted For."
