TETANUS TOXOID
ALUMINUM PHOSPHATE ADSORBED

Tetanus Toxoid, Aluminum Phosphate Adsorbed, offers a slowly absorbed Tetanus Toxoid in which aluminum phosphate is used as the mineral carrier of the antigen. The advantages of aluminum phosphate as a mineral carrier of antigen have been reported by a number of workers.[1-6] Of particular importance is the rapid and sustained immune response following administration of antigen adsorbed on this adjuvant. Another factor of distinction is that antigens adsorbed on aluminum phosphate are well tolerated on parenteral injection.

Tetanus Toxoid, Aluminum Phosphate Adsorbed, is prepared from tetanus toxoid of high purity and antigenic potency. The toxoid is adsorbed on aluminum phosphate in standardized proportions and under controlled conditions. The product meets all requirements of the National Institutes of Health.

INDICATIONS

Tetanus Toxoid, Aluminum Phosphate Adsorbed, is recommended as an efficient, convenient and rapid method of immunizing children and adults against tetanus and should be used whenever the activities or occupations of individuals may bring danger of tetanal infection. The efficacy of active immunization against tetanus is well established and its value proven by numerous clinical investigations and by the experience of the Armed Forces.[7-13]

DOSAGE AND ADMINISTRATION

A complete immunizing treatment with Tetanus Toxoid, Aluminum Phosphate Adsorbed, consists of 1.0 cc. divided into two equal doses of 0.5 cc. each administered at four to six-week intervals. Injection should be made intramuscularly or deep subcutaneously.

15 February 1955

[redacted]

[redacted]

Dear Sirs:

Enclosed is a money order for the sum of $58.95, as payment on the balance due on my account for rental of a truck out of [redacted] 30 Jan. to Feb. 12th, inclusive.

I want to thank you for permitting the use of my credit card. I found the [redacted] credit-courtesy card very convenient and the [redacted] people in [redacted] most helpful.

I had used the [redacted] system cars previously and found them greatly helpful in my travel.

I would appreciate a receipt for the 58.95.

Thank you for your consideration now and in the past.

Sincerely,

[redacted]

No. [redacted]

[redacted] Thank You

The Lessee understands and agrees that said trailer remains the property of the Lessor and that the failure of the Lessee to return said trailer to the address from which it was obtained within the period of the above mentioned "date out" constitutes larceny by bailee and subjects the Lessee to prosecution therefore.

The Lessee agrees to pay the Lessor for any loss of/or damage to said trailer incurred while in the custody of the Lessee, and to maintain and repair the trailer and to return it to the Lessor in the same condition as when received.

The Lessee agrees to indemnify and hold harmless the Lessor from any and all damages and/or liability arising out of the coupling from the use of said trailer and coupling mechanism by the Lessee.

The Lessee acknowledges that he has inspected said trailer and the coupling mechanism, that their use is understood and that they were received in a safe and dependable condition.

September 16, 1954

[redacted] C

Dear Mr. [redacted] C

Although I wasn't able to procure our complete line of solubles, I now have in stock four types which definitely will cover the requirements you mentioned in our conversation.

We have now in our [redacted] B branch, ready for you to pickup, the following oils:

Satisol	.82	per gallon
Toolten	.73	" "
Emulsicool	.28	" "
Exanol	.81	" "
TOTAL	$ 3.34	

Exanol, though not listed in our index, is of the same general specifications as our Crysten.

Your cost then will be $3.34 for one gallon cans of these four solubles. You may pick them up at your convenience at our plant.

Should any further problem arise, please call me.

16

Sincerely,

[redacted] B INCORPORATED

In consideration of the covenants herein contained, the undersigned Owner, hereby leases to the undersigned renter, upon the terms, covenants and conditions herein set out, the motor vehicle described above, hereinafter referred to as "Vehicle."

(1) Renter acknowledges that said vehicle is the property of Owner and that he received it in good mechanical condition.

(2) Renter agrees that he will return said vehicle to Owner in the same condition as he received it, ordinary wear and tear excepted, on the return date stated above or sooner upon demand of owner.

(3) Renter agrees not to use said vehicle for the transportation of persons or property for hire, express or implied; not to use it in violation of any Federal, State or Municipal law, ordinance, rule or regulation governing the use or return thereof; nor to remove it from this state without the written consent thereto of Owner

(4) Renter being one of the assured under the insurance policy covering said vehicle agrees to comply with all the terms and conditions of said policy, which by reference thereto are incorporated herein and made a part thereof, and to comply with the terms and conditions appearing on the reverse side hereof.

(5) Renter further expressly agrees to indemnify the Insurance Company for any and all loss, damage, cost and expense paid or incurred by the Insurance Company because of injuries or damages sustained by occupants of said vehicle, in states where the law makes Owner or its insurance Carrier liable for injuries to occupants of said vehicle or because of injuries or damages resulting from the operation of said vehicle in violation of any of the terms and conditions appearing on the reverse side hereof.

(6) Renter expressly agrees to pay to Owner on demand:
- (a) A mileage charge computed at the rate above specified for the mileage covered by said vehicle during the period of this rental.
- (b) Time charges computed at the rate specified above for the period of this rental.
- (c) The cost of all damage to said vehicle as provided on reverse side hereof.
- (d) A sum equal to the value of all tires, tools and accessories lost or stolen from said vehicle.
- (e) Unless waived hereon a service charge for the return of vehicle to the office at which it was rented when rental is terminated in another locality, computed at the specified mileage rate for actual return mileage.

(7) It is expressly agreed that Renter is not the agent, servant or employee of Owner in any manner whatsoever.

[redacted] A

RENT-A-CAR SERVICE [redacted] (Owner)

By [redacted] C

9 December 1954

I, [redacted] have taken out the sum of 50 dollars from the [redacted] fund for the purpose of payment of mileage and rental fees in the event [redacted] and myself will have to travel by [redacted] service from [redacted] to our official destination [redacted], 451 miles - custody of car, if used, 3 days.

[redacted]

JUSTIFICATION FOR RENTAL CAR: 13 Dec. 1954

A car was found to be necessary for transportation not only from [redacted] but to [redacted] - 77 miles one way. At [redacted] additional trips had to be made to the [redacted] 10 miles away. Taking under consideration bus travel from [redacted] to [redacted] round trip for two, plus 5 round trips to [redacted] and the accessbility to the rented car it is the opinion of the undersinged that the expense for a rented car was justified.

Itemized expense:

298 miles at 7 cents	$ 20.86
3 days rental	15.00
	$ 35.86
Less personal gas	2.00
	33.86

A Proposal for the Investigation of the Active Materials in Piscidia erythrina Millsp.

Estimated cost for one year:

Salary for the senior worker	$ 8,000
Salary for the assistant	6,000
Overhead at 100% of salaries	14,000
Supplies and miscellaneous items	2,000
Total	$30,000

Submitted by [redacted]

DRAFT-HWB/111
24 June 1953

MEMORANDUM FOR THE RECORD

SUBJECT: Project MKULTRA, Subproject 12

1. The purpose of subproject 12 is to isolate and investigate the biological activity of materials present in the bark of Piscidia erythrina Millsp. These are known from preliminary studies to include a narcotic material, a fish poison, and an analgesic substance.

2. [redacted] of TB/I&S provided CD/TSS with samples of the necessary raw material for this work and has agreed to maintain the supply in the future.

3. [redacted] through [redacted], has submitted the attached proposal to carry out the work as outlined by this Division.

4. The total cost of this investigation for a period of one year ending 1 August 1954 will not exceed $30,000.00.

5. [redacted] is cleared through TCP SECRET for Agency contracts and will take security precautions necessary to protect the Agency's interest.

Dear [redacted]

We are prepared to go ahead with our studies on the alkaloid problem as soon as you have indicated your approval of the proposal contained in this letter. This proposal may be summarized under several headings as follows:

Senior worker: Available Sept., 1953. Ph.D., 1949; Thesis [redacted] Three years [redacted] Steroids, growth factors antibiotic synthesis. Completing 1 year with [redacted] glycoside isolation and identification.

Assistant: Specific worker not yet determined. Available personnel have M.Sc. degree or equivalent plus at least 1 or more years industrial research experience, primarily in straight organic synthesis.

Until the senior worker becomes available the problem will be carried by an assistant director of chemical research whose sixteen years of industrial research has covered isolation, identification and synthesis in steroids and antibiotics as well as two isolation problems in alkaloids.

Plan of attack: In general terms it is proposed to isolate the alkaloids by preferential ion-exchange absorption methods. This has proved extremely fruitful in another alkaloid problem. Fractionation and purification methods which should prove fruitful are countercurrent distribution and absorption column chromatography, techniques successfully used by the senior workers on other problems. Potential gradient cellulose chromatography equipment is available if needed.

It is estimated that a year will be sufficient time to carry the problem to a stage for critical evaluation if not to complete it.

Estimated cost:		
	Salary for the senior worker	$ 8,000
	Salary for the assistant	6,000
	Overhead at 100% of salaries	14,000
	Supplies and miscellaneous items	2,000
	Total	$30,000

Patents: It is agreed that [redacted] B shall have the privilege of securing and owning such patents as it wishes to own based on the work done under this contract, and will bear the expense of obtaining such patents. The U. S. Government, or any of its departments, will have a royalty-free license under any such patents. If the U. S. Government or any of its departments should wish patent applications to be filed and patents obtained on any part of this work for which [redacted] B is unwilling to bear the expense for securing patent protection, [redacted] and its employees agree to cooperate in the securing of such patents and their maintenance in a valid and effective form, the expense of such patents to be reimbursed by the U. S. Government department financing this research project.

Payment: It is agreed that payment for this program will be made at quarterly intervals and that [redacted] B will provide statements of expense for this purpose. This project is to run for one year but may be extended or shortened by mutual agreement between [redacted] B and the sponsoring agency.

We are sending you four copies of this proposed agreement with the request that you sign and return two copies, and retain two for your use.

Sincerely yours,

[redacted] B

DRAFT A
18 March 1953

MEMORANDUM FOR THE RECORD

SUBJECT: Meeting with C of B

1. The writer and Dr. Gottlieb visited C at B this day and delivered to him samples of Erythrina Americana seeds and Piscidia erythrina millsp. bark. C agreed to investigate the possibilities of deriving useful materials from these samples and to submit proposals for further work if the preliminary evaluations show promise.

2. In connection with erythroidine, C mentioned that C and C at the same institution, are now engaged in a program of research upon cerebral palsy involving the use of this drug. He also suggested that C of C would be a good consultant in this matter and in connection with other botanicals. When queried about C informed us that he had decided not to take the position at C and that they did not know his whereabouts. It was agreed that three PHS forms should be sent to C for C and two executives at C.

3. C supplied the following information on sources of pliofilm and sealing equipment for it:

a. The manufacturer of the film material is the B The development department is run by C

b. A hand sealer for these materials is made by the B

c. A laboratory model sealer capable of producing water-tight seals is manufactured by the B This is called the Lab model sealer #B-12 and is a universal model having attachments for working with different materials. Its cost is estimated to be about $300.00
