[redacted]

Dear [redacted]

In checking our records, we find that the last accounting we received from you was dated December 31, 1963 and showed a balance of $3,271.25.

We would appreciate receiving a final accounting as well a report on your findings.

Thank you for your cooperation in this matter.

Sincerely,

[redacted]
Treasurer

[redacted]

[redacted]

11 Dec 1965

[redacted]

Enclosed, please find the Final Report and Final Accounting on the [redacted] research grant entitled [redacted] This grant, in the amount of $7,500.00 proved adequate to establish the knowledge of anatomy, techniques and materials required for a continuing study which I expect to make.

I am delighted to be able to inform you that I have continuing support from the [redacted] of which I am the Executive Director--to carry on this study to its satisfactory conclusion.

It is my firm expectation that our mutually held objectives will be served by this piece of research.

Thank you for your patience and understanding.

Sincerely,

[redacted]

[redacted]

1/42-8

[redacted]

Final Report

An experimental study followed the extensive library review. Morphological and behavioral studies were made, and a competence was built up--especially in the behavioral area of the study.

An essentially complete set of techniques has been perfected in this study, and will be used in the continuing work.

The original objectives of the study have not been achieved, but the work will be continued until they are.

Technical reports will be made as information generated, and opportunity permits.

142-8

ACCOUNTING OF [redacted]

The disposition of funds has been as follows:

Direct Labor	
[redacted] (Library Search)	$1,917.00
[redacted]	2,000.00
Equipment Development	
[redacted] (Electronics)	205.00
Expended for Miscellaneous Items:	
[redacted] Library Card	25.00
Mileage	63.10
Supplies	18.65
Total Expended	$4,228.75

This leaves a balance from the original grant as follows:

Grant	$7,500.00
	4,228.75
	$3,271.25

Of this amount, future allocations are approximately as follows:

Supplies and Equipment	$1,188.25
Direct Labor	2,083.00
Remaining to be used	$3,271.25

142-11

[redacted]

31 December 1963

[redacted]

Dear [redacted]

Enclosed is a report on activities carried out under the research grant made by th[redacted]n the amount of $7,500.00 for a project entitled [redacted]

Only a portion of the funds have been expended, and I wish to request that the grant period be extended to 31 December 1964 for completion of the study.

The turbulence of my personal affairs during this past year has slowed down the rate of work on this project; but this was probably good. Typically, a research effort that is more deliberate is also better thought through.

Cordially yours,

[redacted]

[redacted]

encls.

[redacted] C

A Status Report

A review of different aspects of comparative neurology has been carried out. This has taken the form of an extensive library review of the neurological literature, and a compilation of considerable data on the quantitative aspects of the nervous systems of various species.

Some biological materials have been expended, and some development has been accomplished on electronic gear which will enable the study.

If, as I hope, the [redacted] will extend the B period of the grant through December 31, 1964, I will have the remainder of the report at that time.

The disposition of funds has been as follows:

Direct Labor	
C [redacted] (Library Search)	$1,917.00
C [redacted]	2,000.00
Equipment Development	
C [redacted] (Electronics)	205.00
Expended for Miscellaneous Items:	
B [redacted] Library Card	25.00
Mileage	63.10
Supplies	18.65
Total Expended	$4,228.75

This leaves a balance from the original grant as follows:

Grant	$7,500.00
	4,228.75
	$3,271.25

Of this amount, future allocations are approximately as follows:

Supplies and Equipment	$1,188.25
Direct Labor	2,083.00
Remaining to be used	$3,271.25

MEMORANDUM FOR: THE RECORD

SUBJECT : Project MKULTRA, Subproject No. 142

1. The purpose of this subproject is to provide funds to support a small biological program of electrical brain stimulation involving some new approaches to the subject by [redacted] C The support allows for the rental of minimum space and equipment and the part-time employment of a "pair of hands" to carry out the work planned by [redacted] C

2. The reason for separating this work financially from the C other efforts of [redacted] in the Agency's behalf is to allow him to engage in some very practical experiments at some point in the work which would present security problems if this effort were to be handled in the usual way. Some of the uses proposed for these particular animals would involve possible delivery systems for BW/CW agents or for direct executive action type operations as distinguished from the eavesdropping application of [redacted] H

3. As indicative in the attached proposal and budget, the total cost of this project for one year will not exceed $7,500.00. Charges should be made against allotment number 2125-1390-3902. B The [redacted] will function as cover and cutout for these funds. [redacted]

[redacted] 142-14

4. It is not anticipated that any permanent equipment will be required for this subproject.

5. [redacted] possesses a TOP SECRET clearance for Agency work.

[redacted]
Chief, TSD/Research Branch

APPROVED FOR OBLIGATION OF FUNDS:

[redacted]
Chief, Technical Services Division

Date: 23 MAY 1962

Attachment:
Proposal and Budget

Distribution:
Original only

[redacted]

142-14

PROPOSAL

It is proposed to carry out certain biological studies involving electrical brain stimulation of cold-blooded animals. In addition to the various theoretical reasons for such studies, it appears that certain practical guidance systems involving more detailed behavioral control of both positive and negative sorts may be possible than are presently attainable in the warm-blooded animals being investigated. It is also possible that these simpler systems can accomplish the same operational goals with far less critical demands on the electronic parts of the guidance and control system.

The work to be done will consist of literature search, experimental placement of electrodes, observation of effects of stimulation and collation of information regarding the behavioral effects of stimulation in the various well defined areas. Biologically stable preparations with defined stimulation properties will result from this work.
