PROJECT CRYPTO : MKULTRA # 146

GRANTEE : [redacted]

DATE INITIATED : 9 September 1963

During the months of Aug. & Sept. 1963 [redacted] designed and initiated a form-letter survey of [redacted] on a world-wide basis. He did this through legitimate channels [redacted] It was designed specifically with our requirements in mind. The data accumulated in this survey, along with data available in literature and [redacted] personal knowledge of the field, will be used during this year to formulate a basic approach to an attack of [redacted]

This basic approach will subsequently be expanded to include all economically important crops in all politically important areas of the world.

After the initiation of this project the [redacted] requested [redacted] assistance with a survey of sugar crops in that country. The [redacted] sponsors such surveys and was agreeable to [redacted] request [redacted] asked permission from us to accept and it was granted because 1). It will not interfere with our project in the least, 2). It will help him maintain world wide contacts which are useful to us, and 3). It will help him maintain a working relationship with [redacted] and growing techniques, also important to the project. [redacted] left for [redacted] and will return to [redacted] during March 1964 (when the survey has been concluded).

Although [redacted] will continue his efforts on our project while in [redacted] it was mutually agreed that there would be no correspondence relating to the project while he was there, and that payment for services would be held until his return in March.
