SUBJECT : MKULTRA, Subproject 149

1. This subproject is being established for the purpose of supporting realistic tests of certain development items and delivery systems of interest to TSD/BB.

2. During the course of development it is sometimes found that certain very necessary experiments or tests are not suited to ordinary laboratory facilities. At the same time, it would be difficult if not impossible to conduct such tests as operational field tests. This project is designed to provide a capability and facilities to fill this intermediate requirement.

3. The activities under this subproject will be conducted by Mr. [redacted], an individual in the import and export business, in [redacted] Mr. [redacted] holds a TOP SECRET Treasury Department clearance and a SECRET Agency approval. He is completely witting of the aims and goals of his activities.

4. Mr. [redacted] possesses unique facilities and personal abilities which makes him invaluable in this kind of testing operation. Mr. [redacted] because of his peculiar talents and

[redacted]

[redacted] 149-26

capabilities as well as his excellent connections with all of the local law enforcement agencies, will provide a unique and essential capability. Because Mr. [redacted] is no longer re-C sident of the [redacted] area, it is necessary that a suitable replacement be provided in order that a capability for continuance of our activities be maintained.

5. The estimated cost of the project is $10,000.00 for a period of one year. Charges should be made against Allotment Number 4125-1390-3902. Reimbursement will be made for services rendered.

6. Accounting for funds advanced and any equipment under this subproject will be in accordance with accounting proced- A ures established by the [redacted] Administrative Staff/TSD [redacted]

7. A memorandum of agreement along lines established by previous audit recommendations in like situations will be executed.
