Dear [redacted]

I am enclosing our estimate on preparation of the di-Mannich of yohimbine. This estimate is based on use of two pounds yohimbine hydrochloride, rather than one pound as I originally thought it would be.

Two preparations will be necessary because of the volume of material involved. Larger quantities could be handled in the plant if the need arises.

I have arranged for analytical work on the outside. A CHN will cost $14.00 and that figure has been included in our estimate under Materials & Supplies.

Sincerely,

[redacted]
