MEMORANDUM FOR: THE RECORD

SUBJECT : Project MKULTRA, Subproject #21

1. The aim of this subproject is to provide funds for an increase in the scope of that portion of Subproject 48 which deals with the over-all returnee interrogation and rehabilitation program now being carried out by the [redacted] B

B [redacted] Since it is impossible to estimate in advance the number of subjects to be handled under this program, it will be necessary to enlarge its scope from time to time.

2. Subproject 21 was set up originally for the purpose of providing a drug screening facility at the [redacted] B

B [redacted] The total cost of the program amounted to $5720.00. Unfortunately, internal politics at the [redacted] made it im- B possible to carry out the program as planned, and so no funds were ever expended in this Subproject. The basis for the change of Subproject 21 from its original goal to the present one is based upon an identical case where Subproject 10 was converted

B for use in the [redacted] project after it became evident that the funds committed under it originally for another purpose could

A not be used. [redacted] has since audited Subproject 10 without questioning this type of handling.

3. Accounting for funds expended by the contractor in this subproject will be reflected in the general accounting for Subproject 48.

4. The total charges for this project will not exceed $5720.00 for a period of one year ending 30 June 1956.

[redacted]

5. [redacted], the principals in this project are TS cleared. Cut-outs and cover arrangements will be used for dealings with unwitting personnel.

PHARMACOLOGICAL TESTING OF CHEMOTHERAPEUTIC AGENTS FOR CANCER

The principle investigator, [redacted] is familiar with the diphenolic compounds originally synthesized at the [redacted] under the direction of [redacted] and is fully equipped to proceed further the pharmacological testing and bio-assay of such compounds.

It is purposed to test the LD/50 and the pharmacological action of such compounds and related chemotherapeutic agents as may be submitted from time to time through the Pathology Department at [redacted] or as modified by the principle investigator. Detailed reports and records will be kept on the bio-assays and pharmacological tests and submitted as they become available.

The budget desired for this research proposal is:

Personnel - Laboratory assistant	$3,000.00 per annum
Animals and animal maintenance	1,000.00
Miscellaneous laboratory supplies	500.00
Travel	500.00
Total	5,000.00
Institutional overhead 10%	500.00

[redacted] is an associate of the [redacted] and will conduct the work in the facilities of that organization.

MEMORANDUM FOR THE RECORD

SUBJECT: Project MKULTRA, Subproject 21

1. The scope of subproject 21, Project MKULTRA, is to provide CD/TSS with a facility where the pharmacological activity of various materials of interest to the division can be determined in a secure and complete fashion.

2. The chief investigator, [redacted] routinely conducts such tests on large numbers of materials in the laboratories of the [redacted] before the materials are screened for anti-cancer activity. Thus, any materials from CD/TSS can be included in this larger group without their true identity being known to anyone outside the Agency.

3. All business with [redacted] and [redacted] will be conducted through [redacted] acting as cut-out. The attached proposal indicates the distribution of funds. In addition to the $5,500.00, a 4% service charge, or $220.00, for the [redacted] is required.

4. The total cost of this project for one year ending 1 January 1955 will not exceed $5,720.00.
