Dear [redacted]

Enclosed is the signed receipt which you requested.

Due to the fact that your letter was addressed to [redacted] it was delayed in reaching me. That was an apartment from which I moved about [redacted] years ago. The fact that the letter did reach me shows the cordial relationship I have with my local Post Office. My present address is as above.

I telephoned your office today because I felt that by mail there might not be time to make arrangements to meet this week. Furthur I was not certain by your letter whether you felt that such meeting was indicated.

Thank you for the notification that my project has been approved. I understand the stipulations. I am resuming work today.

Sincerely yours

DRAFT-RVL/111
18 September 1953

MEMORANDUM FOR: THE RECORD

SUBJECT: Amendment to Project MKULTRA, Subproject 4

1. Subproject 4 involves the production of a manual by [redacted].

2. The time period of the original proposal by [redacted] was six months, which would expire about 11 October 1953. The unusual nature of this manual demands that it be a creative project based on [redacted], rather than a mere compilation of already existing knowledge. For this reason time estimates are difficult to make in advance and it is apparent at this time that the estimate was too short for the adequate preparation of this manual. It is in the best interests of the Agency to extend this time limit and obtain the best possible manual rather than to hold [redacted] to the six month period.

3. It is requested that the original six months time period be extended an additional six months. There is no change in the original cost estimate or the original agenda.

Dear [redacted]

This is at least a partial answer to the questions you asked the last time I saw you. According to my records, your initial estimate was six months, which would expire about October 11th. I am initiating a six months extension of the original estimate, which should more than take care of time factor. The original cost estimate was $3,000.00, of which $1,500.00 is remaining as of now (this of course does not consider the invoice I expect to receive in a few days).

Sincerely yours,

SIDNEY Gordon

Dear [redacted]

Following our conversations, of April thirteenth, I have given the subjects discussed considerable thought. Below is outlined what I believe is necessary adequately to cover instructions for the workers.

1. Supplying [redacted] background facts in order that a complete novice in the subject can appreciate the underlying reasons for the procedures suggested. Part of this background would clarify the erroneous opinions commonly held by those who are unfamiliar with [redacted] In this section would be given the alternative proceedures, or modifications, needed by different types of operators (differences in fact or assumed), as well as changes in proceedure needed as situations and circumstances vary. This material is necessary in order for the operator to be able to learn how to do those things which are required. Without this section the most the reader could get would be a knowledge [redacted]

2. Detailed descriptions of [redacted] in all those operations outlined to me. Also variations of techniques according to whether material is in a solid, liquid or gaseous form. Included would be explanations of [redacted] required and how quickly to master such skills. It is understood that no manipulation will be suggested which requires [redacted] not normally used, nor any necessiting long practice. To state this positively: all [redacted] described would be adaptations of acts usually performed for other purposes. Descriptions also would be given of simple mechanical aids, how to make them, and how to carry them about. Where needed, application of the data given in section 1 would be supplied. The time consuming part of writing this section will be in developing the adaptations and modifications of the best of the existing [redacted] to fit new requirements.

3. A variety of examples to show in detail how to make use of the [redacted] previously described. These examples would be given with varying situations and the ways to accomodate proceedure to meet the variations -- [redacted]

If desired, I am prepared to start work on this project immediately. I believe that I can complete the proposed writing in eighteen to twenty weeks. I understand, if I am given this assignment, that you, or your representative, would be willing to check my work at a conference approximately every two weeks.

Sincerely yours

P. S. Cost Estimates for the work outlined above are $3,000.00 for aperiod six months from the time work is commenced. Vouchers will be submitted monthly or biweekly as the work commences.
