January 22, 1964

[redacted] B

Gentlemen:

We wish to submit a Final Financial Report for Research Supported by the [redacted] C

Total Funds Received		$282,290.00
Expenses:		
Salaries	$188,264.10	
Contingency	795.62	
Equipment	23,675.32	
Travel	4,992.87	
Other	2,707.65	
Chemical, Drugs & Gases	9,644.88	
Glassware	2,675.48	
Animals	3,059.50	
Misc. Lab Supplies	16,856.63	
Staff Benefits	4,637.95	
Overhead	24,980.00	
Total		$282,290.00

We hope that you can give favorable consideration to this report.

Yours truly,

B [redacted]

Research Accountant

B [redacted]

Copy to Dr. [redacted] C

I certify that services or materials have been satisfactorily received and the expenditures were incurred on official business.

[redacted]

Date 24 June 1964

#7500. Only recovery action being taken [redacted]

46-8

June 18, 1964

[redacted] B

Dear Mr. [redacted] B

Referring to your letter of May 26, we find on review of your files a letter from Professor [redacted] C written on June 15, 1960, specifically requesting a grant of $15,000 for the period of April through September of 1960, and for support at an annual rate of $20,000 thereafter. Again, in a letter dated October 31, 1961, Professor [redacted] requested $8,000 for support of Professor [redacted] work for the period October 1961 to October 1962. In the same letter he explained that he would use the remainder of the grant for that year to support Drs. [redacted] of his laboratory. In a letter of October 5, 1961, Professor [redacted] requested a personal grant of $10,000 for the period of his sabbatical year. The latter grant was never approved by the [redacted] B

It would appear from these facts that while the [redacted] has, perhaps, been somewhat informal in its administrative practice, the case in point, namely: the May 1962 payment of $7500 to the University of [redacted] was, in fact, unique in that there is no formal request in the files of the [redacted] to support the specific grant and it must, therefore, be considered an inadvertent overpayment by the [redacted] B

We would appreciate any further consideration you may be able to give this matter.

Very truly yours,

[redacted] C

[redacted] B 46-9

May 26, 1964

OFFICE OF THE
CONTROLLER

[redacted] B

Dear Dr. [redacted] Q

This letter is in response to your letter to me of May 6, 1964. In accordance with your request to recheck our records for possible overpayment of $7,500.00 we submit the following data:

Remittances received compared to approved budgets:

Grant Year Ending	Budget	Amount Received	Date
9-30-54	$ 28,050.00	$ 7,012.50	11-53
		7,012.50	4-54
		7,012.50	5-54
		7,012.50	9-54
	28,050.00 ✓	28,050.00 ✓	
9-30-55	34,400.00	17,200.00	5-55
		17,200.00	9-55
	34,400.00 ✓	34,400.00 ✓	
9-30-56	34,100.00	17,050.00	1-56
		8,525.00	5-56
		8,525.00	8-56
	34,100.00 ✓	34,100.00 ✓	
9-30-57	40,700.00	10,175.00	1-57
		10,175.00	3-57
		10,175.00	7-57
		10,175.00	12-57
89,100	40,700.00	40,700.00	
9-30-58	48,400.00	20,350.00	7-58
		28,050.00	10-59
	48,400.00	48,400.00	
9-30-59	46,640.00	23,320.00	3-59
		23,320.00	10-59
	46,640.00 ✓	46,640.00 ✓	

Grant Year Ending	Budget	Amount Received	Date
9-30-60		$ 15,000.00	5-60
		7,500.00	12-60
	-	22,500.00	
9-30-61	$ 20,000.00	7,500.00	5-62
	20,000.00	7,500.00	
9-30-62	-	20,000.00	6-62
	-	20,000.00	
Total Remittances		$ 282,290.00	

The budget requests after September 30, 1959 were made informally by telephone. Additional requests to reduce deficits, over and above the budget, were likewise granted on the basis of telephone conversations. It is a request of this nature, that we feel the $7,500.00 received during May, 1962, to be.

On January 22, 1964, we submitted to you a report of expenditures which shows that research expenses of $282,290.00 were paid from [redacted] Grants. Actually, there was a small deficit in this account, which the University absorbed. This is not shown on the report. A photo copy of the report is attached.

Dr. [redacted] has reviewed his records and searched his memory to determine the sequence of transactions and he concurs that the above is about as precise a determination as we can make at this time. He has in his possession a memorandum of a telephone conversation with your office in which he records the request for the $7,500.00 in question.

It is unfortunate that we did not continue a complete exchange of written requests and identify the period of research to which your support applied. Such documents would have been of inestimable value in answering your inquiry. It is our sincere belief however, that the $7,500.00 check received during May, 1962, was not a duplicate payment and was your response to an informal request, for additional funds. If you feel that the matter deserves more attention, or that we have not made a satisfactory explanation of our accountability, please do not hesitate to inquire further.

Very truly yours,

[redacted]

Controller

[redacted]

Project [redacted] MKULTRA 46

Date Initiated: 24 March 1955

Date Expires:

Funds - current year: $23,400.00

Purpose: To study the metabolic fate and distribution of psychotropic drugs in order to elucidate their mode of action.

Status: This is a continuing project. Current work is on tetrahydrocannibol into which radioactive carbon is introduced. Further work is awaiting the arrival of an appropriate post-doctoral student.

[redacted] B

June 15, 1960

[redacted] B

Dear Dr. [redacted] C

Enclosed please find a brief report of our activities in the [redacted] B first six months of this fiscal year. In addition [redacted] thesis has been sent to you presenting in detail some of the pharmacological properties of certain tetrahydrocannibols.

[redacted] B We have two applications pending for grants-in-aide from the [redacted] If these two grants are activitated and if the [redacted] B support of the [redacted] continues after October 1960 in the range of $15,000 to $20,000 per year, we can continue our present level of research and in addition undertake the metabolic study of a radioactive tetrahydrocannibol as planned. In the meantime we need approximately $15,000 for our current work in the second six months of the fiscal year (April through September 1960). I hope you will find it possible to continue your generous support to this extent.

Are you planning to visit us in the next few months? I am sure you would be pleased at the research activity you are sponsoring.

Yours truly,

[redacted] C

Cost $20,000.00 FY 62 Completion Date 5 November 1962

Purpose: Elucidation of the site and mechanism of action of LSD using isotope and tagged molecules, establishment of methods for isolating LSD and its metabolites from Biological materials and their identification.

Status: Terminated

Requirement: Internally generated based on need to obtain fundamental information and elucidation of the mechanism of action of a chemical compound used in selected operational situations.

26 April 1960

[redacted]

Dear Dr. [redacted]

[redacted] is forwarding herewith a check for $15,000.00 to provide additional support for your research program during the present grant year.

It is believed that the fundamental information obtained from your research will be of inestimable value. Your studies on the distribution and metabolic fate of selected compounds having significant central nervous system activity will provide information required for more productive research leading to improved compounds.

A summary accounting for the period from 1 October 1959 to 30 April 1960 will be appreciated at your earliest convenience.

MEMORANDUM FOR: Chief, Finance Division

VIA : TSD/Budget Officer

SUBJECT : MKULTRA, Subproject 46, Invoice No. 10, Allotment No. 2125-1390-3902.

1. Invoice No. 10 in the amount of $20,800.00 covering the above subproject is attached. Payment should be made as follows:

Cashier's check in the amount of $20,000.00, drawn on a [redacted] bank.

Cashier's check in the amount of $800.00, drawn on [redacted] bank.

The checks should be made payable to the [redacted]

2. Please forward the checks to Chief, TSD/Research Branch through TSD/Budget Officer by 28 November 1961.

3. This is a final invoice. However, since it is anticipated that additional funds will be obligated for this project the files should not be closed.

MEMORANDUM FOR: THE RECORD

SUBJECT : Supplement to Project MKULTRA, Subproject 46

1. The purpose of this supplement is to provide additional funds for the support of a research program being carried out by [redacted] and associates at the University of [redacted] College of Medicine and provide for professional and related services by Dr. [redacted] on specific problems of pharmacological and toxicological interest to TSD. The program provides fundamental information and elucidates the mechanism of action of certain psychotropic drugs. Particular emphasis has been centered on the structure activity relationships among a class of compounds of immediate interest to TSD/CB. The scope of the program includes studies on the distribution and metabolic fate of selected compounds having siginificant central nervous system activity. Studies also will be conducted on the pharmacological aspects of drug tolerance and addiction together with an examination of the metabolism of drugs acting in the central nervous system. It is expected that results obtained will provide information required for development of more effective compounds.

[redacted]

[redacted] A [redacted] C 4/6-20

2. The additional funds required for this program for the year amount to $20,000.00. To this sum must be added $800.00 representing a four per cent service charge to the [redacted] A, who act as cut out, making the total amount $20,800.00. Charges should be made against Allotment 2125-1390-3902.

3. [redacted] B has requested that the investigator submit to them a summary accounting on an annual basis of all monies received from [redacted] B. Also, it has been requested that any unexpended funds be returned at the close of the grant year.

4. The requirement for a six months informal accounting on the part of the principal investigator is waived.

5. It is not anticipated that any permanent equipment will be required for this program.

6. It has been mutually agreed that travel expenses which are reimbursable by the University from project funds will be accounted for in a manner consistent with the accepted policy of the University.

7. Dr. [redacted] C possesses Agency TOP SECRET approval.

MEMORANDUM FOR: THE RECORD

SUBJECT : Supplement to Project MKULTRA, Subproject 46.

1. The purpose of this supplement is to provide additional funds for the support of an expanded research program being carried out by Dr. [redacted] at the University [redacted] College of Medicine. Acquisition of a difficult to obtain intermediate of a psychotropic drug of Agency interest makes possible the introduction of a radio labeled group which will permit a significant study on its metabolic fate. The results obtained will provide information basic to an understanding of its pharmacological effect.

2. The additional funds required for this expansion of the program during the remainder of the year amounts to $7,500.00. To this sum must be added $300.00 representing a 4% service charge to [redacted] B [redacted] who act as cut out, making the total amount $7,800.00. Charges should be made against Allotment 1525-1009-1902.

3. [redacted] has requested that the investigator submit to them a summary accounting on an annual basis of all monies received from [redacted] Any unexpended funds will be returned by the grantee at the close of the grant year.

[redacted] A

[redacted]

[redacted] [redacted] 46-26

4. The requirement for a six (6) month informal accounting on the part of the principal investigator is waived.

5. It is not anticipated that any permanent equipment will be required for this program.

6. It has been mutually agreed that travel expenses which are reimbursable by the University from the project funds will be accounted for in a manner consistent with the accepted policy of the University.

7. Dr. [redacted] possesses Agency Top Secret approval. The project is unclassified after it leaves [redacted]

MEMORANDUM FOR: CHIEF, FINANCE DIVISION

VIA: TSS/Budget Officer

SUBJECT: MKULTRA Subproject 46, Invoice 6, Allotment 7-2502-10-001

1. Invoice No. 6 is attached covering the above subproject. Payment should be made as follows:

Cashier's check in the amount of $2,387.13, drawn on a bank,

Cashier's check in the amount of $39,815.36, drawn on a bank,

Cashier's check in the amount of $19,907.78, drawn on a bank,

All three checks should be made payable to the

2. Please forward the checks to Chief, TSS/Chemical Division through TSS/Budget Officer by Friday, 5 July 1957.

3. This is a final invoice. A total of $93,121.60 was obligated under this subproject during FY 57. However since it is anticipated that additional funds will be obligated for this project, the files should not be closed.

DRAFT
HWB/vaj

22 August 1958

MEMORANDUM FOR: THE RECORD

SUBJECT : Project MKULTRA, Subproject 46

1. The purpose of this project is to provide funds for the partial support of the research program being carried out by Professor [redacted] and associates at the University of [redacted] College of Medicine. Additional support for the program is presently being provided by [redacted], the [redacted] and the University of [redacted] The budget for 1958 through 1960 (including only that portion covered by Agency funds) is attached. The attached report indicates the details of the program to be carried out and also shows current status of the work.

C C B Ce

2. As is indicated in the attached Report, this program which is aimed at the elucidation of the mechanism of action of LSD-25 has met with considerable success. Many of the facts and relationships developed in the preliminary work on methods and techniques have materially advanced other projects being carried out by TSS/CD. Actually, the successful completion of this project would remove several of the most obstinate "road-blocks" in the continued development of the psychochemical field, namely: (1) a specific antidote for LSD-25, (2) a sensitive method for assaying LSD-25 in blood and urine, (3) a sensitive qualitative laboratory screening system for psychochemicals, (4) an idea of the relationship between chemical structure and biological activity in this type of material, and (5) the relationship between LSD-25 and other materials of a similar nature which are now available.

3. The investigator's request for a two-year grant is reasonable in the opinion of TSS/CD. We have previously conducted this program of basic research on a two-year basis. It should be noted that the present budget for the coming two years is approximately [redacted] of that previously required. This does not represent any decrease in the total effort in the program. It has been accomplished by the addition of funds from other sources. By careful selection of the sources of additional funds TSS/CD has been able to maintain the same control over the goals of the project as it possessed when it was the sole support.

H

B 4. [redacted] will serve as cutout for the transfer of funds to the investigator. The

[redacted] A [redacted]

[redacted] 46-45

estimated cost of the work is $46,640.00 for a period of two years. To this must be added four percent service charge for [redacted] amounting to $1,865.60. Therefore, the total cost of this program for two years will not exceed $48,505.60.

5. The University of [redacted] shall retain title to any permanent equipment in lieu of higher overhead rates.

6. [redacted] requested that the investigator submit to it a summary accounting for all monies received under its grants and that all unexpended funds remaining at the end of the project be returned to the Fund.

7. It has been mutually agreed that travel expenses which are reimbursable by the University from project funds will be accounted for in a manner consistent with the accepted policy of the University.

8. Professor [redacted] has been cleared to Top Secret by the Agency and is the only witting individual at [redacted]. The project is unclassified after it leaves the [redacted]

[redacted]

[redacted] DRAFT [redacted]

46-46

5 December 1956

MEMORANDUM FOR: THE RECORD

SUBJECT: Project MKULTRA, Subproject 46

1. The purpose of this project is to provide funds for the partial support of the research program being carried out by Prof. [redacted] and associates at the University of [redacted] College of Medicine. Additional support for the program is currently being provided by [redacted] and the University of [redacted]. The proposal covering the details of the program and the budgets for 1956-57 and 1957-58 (including only that portion covered by Agency funds) is attached.

2. As is indicated in the attached report, this program which is aimed at the elucidation of the mechanism of action of LSD-25 has met with considerable success. Many of the facts and relationships developed in the preliminary work on methods and techniques have materially advanced other projects being carried out by TSS/CD. Actually, the successful completion of this project would remove several of the most obstinate "road-blocks" in the continued development of the psychochemical field, namely: (1) a specific antidote for LSD-25, (2) a sensitive method for assaying LSD-25 in blood and urine, (3) a sensitive qualitative laboratory screening system for psychochemicals and (4) an idea of the relationship between chemical structure and biological activity in this type of material. (5)

3. The investigator's request for a two year grant is reasonable in the opinion of the writer. During the past year two very acceptable candidates for the post of enzymologist on this program have turned the job down because of the year-to-year basis of the program. It appears that it would not be feasible to achieve the same end by increasing the support from sources other than the [redacted] since the goals of the program would have to be altered considerably to make this possible.

4. [redacted], will serve as cutout for the transfer of funds to the investigator. The estimated cost of the work is $89,540.00 for a period of two years.

$46,640.00

[redacted]

4/6-46

To this must be added four percent service charge for the [redacted], amounting to ~~$3,581.60~~. Therefore, the total cost of this program for two years will not exceed ~~$93,121.60~~ $48,505,60.

5. The University o[redacted] shall retain title to any permanent equipment in lieu of higher overhead rates.

[redacted] has requested that the investigator submit to it a summary accounting for all monies received under its grants and that all unexpended funds remaining at the end of the project be returned to [redacted]

46-46

Proposal for the Continued Study of the Metabolism of d-Lysergic Acid Diethylamid

It is proposed to continue the study of LSD-25 and related compounds in substantially the same areas of work as during the past year with alterations as required by the advances made. The program has now progressed to the point where practical plans for the work can be laid down based upon knowledge and experience gained in the past. Very briefly stated the present status of the work is as follows:

1. We have shown that side-chain carbon labelled LSD-25 remains intact during its passage through the animal and thus that it is an adequate tracer molecule.

2. We have completed organ and tissue distribution studies from the 10 minute to the 12 hour period with the available Carbon-labelled tracer.

3. We have found that two species of mammals other than rats show the same pattern of LSD-25 distribution after dose indicating that an extrapolation to man is probably feasible.

4. We have isolated and partially characterized the metabolites of LSD-25 excreted by the liver and we are in the process of producing amounts of these sufficient for further work.

5. We have developed a technique of measurement of cortical electrical potentials which allows us to study the effects of LSD-25 and various inhibiting materials directly in the central nervous system.

6. We have also developed a biological assay technique using a spinal reflex arc of the cat which is particularly amenable to inhibition and potentiation "analysis" studies with LSD-25 and related compounds.

7. We have investigated the known synthetic methods for the production of LSD-25 including biosynthesis from the point of view of the production of radio-carbon ring-labelled material. None of these so far has proved a feasible approach.

8. We have made considerable progress toward a new and completely different synthetic process for LSD-25 which if it proves successful will provide the ring-labelled LSD-25 that is needed for more definitive tracer studies.

9. We have completed an exhaustive study of tissue extraction techniques working toward a method which will allow the chemical isolation of LSD-25 from body fluids and tissues when it is present in the usual concentrations. The method at present under investigation shows good promise of achieving this goal as further refinements are introduced.

It is apparent from the above accomplishments that the major progress to date has had to do with developing the tools for pursuit of the main goal of this research program. It is also apparent that with a few additions to these methods, we are now in a position to make use of what we have learned so far to produce basic information about the sites and mode of action of LSD-25, how this action can be modified or reversed, how it might be accentuated, what other materials might produce comparable or complimentary effects, how such materials can be detected in the medico-legal sense, and possibly considerable basic information on the neurochemical basis for the stress reaction and other important responses of animals to their immediate environment.

It is the opinion of those familiar with the details of this project that the next two years work will provide many if not all of the desired data indicated above. As in every case of a program of this type, a number of unforeseen difficulties as well as some fortuitous discoveries will no doubt appear as the work progresses, however there is every reason to believe that the next two years will yield directly useful information at a rate far above that of the introductory period of the program.

In the past this research program has been carried out on a year-to-year basis. There were several reasons for this, chief among which was the fact that the feasibility of our general approach to the problem had not been completely established. Contributing factors were that varying amounts of support were available from sources other than [redacted], and that outside pressure on the project personnel to take positions in longer term projects elsewhere was not great enough to cause them to leave. All of these factors now appear to have changed in such a way as to make it

[redacted]

advisable to place the program on at least a two year basis as shown in the financial proposal. We have indicated in the foregoing resume of the work that the feasibility of our approach to the problem has been amply demonstrated. In addition, the University of [redacted] has assumed a long term obligation to this Department to provide new integrated working space for the program, more basic equipment and certain faculty status changes for those employed on the program. The obligation assumed by the University cannot be readily stated in financial terms since it involves many intangible advantages to the program. Finally, it is becoming impossible to retain competent personnel on the basis of one year appointments and so we find it almost mandatory that we obtain commitment for at least two years' support. We have in the past solicited as much outside support for the program as time would allow and we shall continue to do so in the future, however the basic framework of the program depends upon [redacted] support.

As it is planned at present, the project personnel will remain the same for the next two years except for the addition of an enzymologist and one technician if they can be obtained. Professor [redacted] of the Chemistry Department has indicated his desire to maintain the synthetic chemical work and the various other consultants to the program will continue to serve. Due to the support of the [redacted], and the University of [redacted] the cost of new personnel can be absorbed without any major increase in the [redacted] grant.

MEMORANDUM OF AGREEMENT

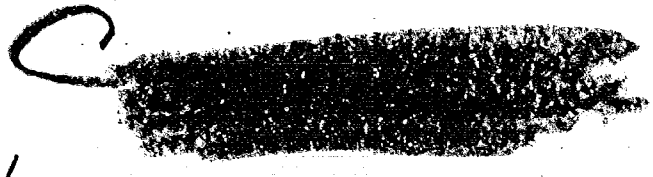

The purpose of this Memorandum of Agreement is to set forth the mutual administrative responsibilities of the principal research investigator and the sponsor. Therefore, it is mutually agreed that,

A. The principal investigator shall submit to the sponsor, at six month intervals, an informal statement of expenditures of monies advanced for research activities. It is requested that the statement be submitted in essentially the following form:

Personal compensation (Salaries, Subject fees)
Equipment
Supplies and Services
Contingencies
Overhead

B. It is understood that any travel expenses incurred in the furtherance of the research program will be accounted tothe University in a manner consistent with its established practices and policies.

C. The principal investigator shall submit to the sponsor semi-annual reports on the technical progress of the research covered by these funds.

DRAFT
15 December 1955

MEMORANDUM FOR: THE RECORD

SUBJECT : Extension of MKULTRA, Subproject 46

1. The scope of this research program is intended to cover [redacted] work to be done with LSD and related compounds by Professor [redacted] at [redacted] University for a period of one year starting 1 October 19[redacted] 30 September 1956. The project will be handled through [redacted] for cutout and cover purposes. The proposal from Professo[redacted]

2. The general objectives of this project are directed at the elucidation of the site and mechanism of action of LSD by use of isotopically tagged molecules, the establishment of adequate methods for isolating LSD and its metabolites from biological materials, and a method for identifying these compounds.

3. Professor [redacted] has available to him at [redacted] a highly competent group of scientists of international reputation encompassing the fields of physical and organic chemistry in addition to those of medicine and psychology. He plans to use these people as informal consultants in the work.

4. The costs of this program are estimated to be $35,464.00 including $3,100.00 for the ten percent University overhead charge and $1,364.00 for a four percent service charge by [redacted] Charges should be made against [redacted] Allotment 6-2,902-10-001.

5. This project will be completely unclassified after it leaves [redacted]

Continued Study of the Metabolism of d-Lysergic Acid Diethylamid

1. Studies of the metabolism of d-lysergic acid diethylamid (LSD) are complicated by the fact that the effective doses are in microgram quantities. Tagging the molecule with radioactive or with stable isotopes therefore assumes an extraordinary importance since only by this means is there any likelihood of obtaining information in a relatively short time. The over-all plan will be to incorporate into the molecule suitable atoms to serve as tags and to administer it to experimental animals in whose tissues the tagged atoms can be identified after various time periods. By combining several methods of tagging, deductions can be made as to the fate of the intact molecule or certain fragments of it. This approach requires the coordinated work of a team representing experts from a number of fields. We are fortunate enough to have such a group of trained individuals representing pharmacology, biochemistry, synthetic organic chemistry, and biophysics.

2. Synthesis of LSD and related compounds. The chemical nature of the compound makes it a difficult one to work with. Knowledge of the metabolism of LSD may be gained either by studies of this molecule suitably tagged or by studies of lysergic acid or various derivatives in which isotopes have been introduced at proven locations.

3. Several isotopes show promise as possible tags for use in the LSD molecule. Radiocarbon (carbon 14) and tritium (hydrogen 3) are of exceptional interest because these two elements make up a large part of the molecule. Both can be obtained with very high specific activity and therefore may be able to supply sufficient radioactivity so that microgram quantities can be traced in

WARNING NOTICE
SENSITIVE INTELLIGENCE
SOURCE ... APPROVED

the body. Heavy nitrogen (nitrogen 15) has many advantages; however, as a ring element, synthesizing it into the molecule will be an exceptionally difficult feat.

4. The synthetic chemical program is under the direction of Dr. [redacted] Lecturer in Chemistry. He will be assisted by Dr. [redacted] post doctoral fellow in chemistry coming this fall from the University of [redacted] and by a graduate student to be appointed.

5. Metabolism of LSD and related compounds. The problem is to discover what the body does with LSD. The percentages of a dose of LSD retained in many other organs and tissues of the body will be measured. The pattern of excretion is important. Information as to what chemical alterations are induced by the metabolic activity of cells in the central nervous system or in the liver or in the muscle will be sought. Because of the ability of this molecule to produce schizophrenic-like disorganization in normal humans, the concentration of LSD in the central nervous system will of course have a prime interest. One task will be to discover whether concentration differences exist in various parts of the central nervous system.

6. The over-all budget is thus $34,100.00 plus the allowance for university overhead.

MEMORANDUM FOR: CHIEF, FINANCE DIVISION

VIA : TSS/Budget Officer

SUBJECT : MKULTRA Subproject 46, Invoice #2, Allotments 5-2502-10-001 & 6-2502-10-001

1. Invoice #2 is attached covering the above subproject. This is a final invoice. It is requested that payment be made as follows:

Two cashier's checks drawn on a [redacted] bank, payable to [redacted], one in the amount of $23,033.34 and the second for $917.34.

2. The checks should be forwarded to Chief, TSS/Chemical Division, through TSS/Budget Officer, no later than 30 September 1955.

3. The two invoices covering this subproject aggregate $35,776.00, and make use of the balance of the FY 55 funds, plus the FY 56 funds obligated to date under this subproject. Since it is expected that additional FY 56 funds will be obligated under this subproject, the files on this project should not be closed.

I CERTIFY THAT FUNDS ARE AVAILABLE:

4667

MEMORANDUM FOR: THE RECORD

SUBJECT : Project MKULTRA, Subproject 46

1. The scope of this research program is intended to cover work to be done with LSD and related compounds by Professor [redacted] at the [redacted] University for a period of one year beginning 1 February 1955. The project will be handled through [redacted] for cut-out and cover purposes [redacted] approval from Professor [redacted]

2. The general objectives of this project are directed at the elucidation of the site and mechanism of action of LSD by use of isotopically tagged molecules, the establishment of adequate methods for isolating LSD and its metabolites from biological materials, and a method for identifying these compounds.

3. Professor [redacted] has available to him at [redacted] a highly competent group of scientists of international reputation encompassing the fields of physical and organic chemistry in addition to those of medicine and psychology. He plans to use these people as informal consultants in the work.

4. The funds for this project include $10,500.00 for the synthetic tagged LSD, $20,773.00 for metabolic studies on such compounds, $3,127.00 for the 10% University overhead charge and $1,376.00 for 4% service charge by [redacted] Therefore, the total cost for this investigation will not exceed $35,776.00 for a period of one year. At the present time, the sum of $15,000.00, representing $14,400.00 to [redacted] University, plus $600.00 fee to [redacted] is being committed. The balance of the total will be committed at a later date.

5. This project will be completely unclassified after it leaves the [redacted]
