DEPARTMENT [redacted] B

January 26, 1956

[redacted] B

Gentlemen:

The undersigned would like to apply for a yearly grant beginning February 1, 1956, for $2,750.00 for a research project to be carried out in the Department of [redacted] B

B

The purpose of the study is to discover the pharmacological effects of certain groups of compounds prepared by Dr. [redacted] and associates of the Department of [redacted] In other words, we want to take a further step into the most basic aspects of pharmacology--biochemorphology, or the relation of chemical structure and physical properties of new chemical compounds to biological activity. We propose to test the following compounds:

a. Various synthetic isoquinoline derivatives.
b. Heterocyclic compounds containing two or more ring systems.

It is highly desirable to accumulate pertinent data on all these types of new compounds for the treatment of disease as well as for the advancement of science itself.

These compounds will be tested on the:

a. Central nervous system.
b. Autonomic nervous system.
c. Sensory nerves.
d. Sensory nerve ends.
e. Somatic motor neurones.

This classification, of course, includes drugs such as those producing hallucinations, tranquilization, sedation, anesthesia, adrenergic and cholinergic effects, and general and local analgesia. In addition, the compounds will be tested as to their effect on the smooth muscle itself and on possible antagonism to histamine.

[redacted]

55-8

I propose that the following budget be provided for the project:

$ 275	- Overhead for the University
1,700	- Salaries
250	- Travel and administration
525	- Animals, chemicals, and miscellaneous equipment
$2,750	- TOTAL

May I add that this grant will be a further step in the cooperation between the Departments of [redacted] and [redacted] at the [redacted] B,

Doctors [redacted] and [redacted] will be periodically informed as to the results.

Respectfully submitted,

[redacted]

Professor of [redacted] C
