November 16, 1954

Dr. [redacted] C

Dear Sir:

We have examined your check book and bank statements relative to the [redacted] B and submit herewith a Summary Statement of Cash Receipts and Disbursements for the period from July 4, 1953 to July 3, 1954.

Receipts and disbursements for this fund are maintained in a Special Account with the [redacted] E

In our opinion, the accompanying Statement of Cash Receipts and Disbursements correctly sets forth all transactions for the Fiscal Year ended July 3, 1954, as well as the unexpended balance on deposit as of July 3, 1954.

Respectfully submitted,

B [redacted]

C By [redacted]
CERTIFIED PUBLIC ACCOUNTANT

7-4

Dr. [redacted] C

SUMMARY STATEMENT OF CASH RECEIPTS AND DISBURSEMENTS OF THE [redacted] B

FOR THE FISCAL YEAR ENDED JULY 3, 1954

Cash Balance - July 3, 1953			$ 5,298.29
Cash Receipts			
July 29, 1953		$21,287.50	
December 9, 1953		21,287.50	
March 16, 1954		21,287.50	
May 12, 1954		21,287.50	
Total Cash Receipts			85,150.00
			90,448.29
Cash Disbursements			
Return of Unexpended balance of fund on hand - July 3, 1953		5,298.29	
Transfer of Funds			
[redacted] B	$48,650.00		
[redacted] B	11,700.00	60,350.00	
Fund Expenses			
Salary - Dr. [redacted] C	7,999.96		
Salaries - Other	2,551.47		
Consultation Fees	1,590.00		
Supplies and Equipment Purchased	2,535.81		
Cost of Meals, Transportation and Other Expenses provided for subjects and doctors	5,093.41		
Telephone	484.03		
Rental - Laboratory Office	675.00	20,929.68	
Total Cash Disbursements			86,577.9
Cash Balance - July 3, 1954			$ 3,870.3

Note: Subsequent to July 3, 1954 there was paid, expenses totaling $340.70, which are applicable to this fiscal year. In addition, $600.00 was transferred to [redacted] B to cover these expenses for the fiscal year.

MEMORANDUM FOR THE RECORD

SUBJECT: Project MKULTRA, Subproject 7

1. The scope of subproject 7 is intended to include the work to be done with LSD and related materials by Dr. [redacted] C at his two facilities for the period ending July 4, 1954. The project will continue to be handled through the [redacted] for B cut-out and cover purposes. The proposal from Dr. [redacted] to the C B [redacted] is attached to this memorandum.

2. Emphasis will be placed in this coming year on translating the basic data obtained to date into operationally pertinent material along the following lines:

a. Disturbance of Memory
b. Discrediting by Aberrant Behavior
c. Alteration of Sex Patterns
d. Eliciting of Information
e. Suggestibility
f. Creation of Dependence

It is planned to have the second year's work culminate in a compendium of information on this subject that will resemble an operational field manual as much as possible. All other CD/TSS project data that has a bearing on this subject will be used in the preparation of the manual.

3. The sum of money listed under Dr. [redacted] C budget includes work in the fields of brain enzyme work and nerve metabolism to be subcontracted to other organizations.

4. The funds include $45,650 for the project at [redacted] B C [redacted] $39,500 for Dr. [redacted] own project, and a 2% service charge for [redacted] amounting to $1703.00. B Therefore, the total cost of this investigation will not exceed $86,853.00 for the period from July 5, 1953 to July 4, 1954.

[redacted] A
Research Director

Date: June 10-1953.

Attachment:
Proposal

Original Only.

[redacted]

[redacted]

June 8, 1953

[redacted]

Dear Dr. [redacted]

May I acknowledge with thanks the support of your foundation for the previous year's research on LSD25. I should like to take this opportunity to apply for support for the fiscal year July 5, 1953 to July 4, 1954 to continue the research project on the effect of LSD25 on normal adults. The program for the following year is planned as follows:

Content analysis of the present data will be attempted by two psychiatrists. One of these psychiatrists will be the psychiatrist assigned to the project itself. This psychiatrist has observed the phenomana. Another psychiatrist will independently analyze the verbatim recordings in over 100 experiments in which LSD25 has already been given. A comparison of the two surveys will be made to evaluate not only the effects of the drug but the technique of the experimental procedures. The analysis of the data will first concern itself with the raw material and the significance of individual and group responses based on the raw material as presented by

[redacted]

1-18

the verbatim recordings. [redacted]

Simultaneous with the scrutiny of the raw material, further experiments on individual subjects will be carried out by the ~~psychiatrist~~ psychologist who, using both projective and non-projective media, forces externalization of the attitudes and conflicts of the personality ~~, it is rapidly cutting through the various defences~~. The quantitative and qualitative analysis of the test data will be correlated with the psychiatrist's study of the raw data to ascertain if the simple interview technique outlined to you in my report of May 28, 1953 are supplemented or contradicted by our battery of tests:

(1) The Wechsler-Bellevue Intelligence Scale

(2) The Bender-Gestalt

(3) The House-Tree-Person Test

(4) The Rorschach

(5) Word Association Test

(6) Cards 1, 2, 3BF of the Thematic Apperception Test

Integrating the work of the psychiatrist who, as I have mentioned, is concerned with the raw data and the work of the psychologist who is concerned with the projective and non-projective testing will be the coordinating activities of the neurophysiologist. He will be studying the effect of the drug on perception and on motor activities. The steadiness test heretofore described, eye-hand coordination, reaction time to light and sound will be studied together with the variables described on the attached questionnaire as a function of time. Plans are being made to amplify the IBM card

[redacted]

[redacted] 7-18

data so that the signif[redacted] attached questionnaire may be more closely delineated. These experiments are very promising and I believe that the utilization of the questionnaire is much more than a theoretical structure to our program. It has, I believe, provided us with the best type of guide for the study of the effect of the drug as a function of time after ingestion that could have been devised under our experimental conditions.

One of the difficulties of determining explicitly the effect of the drug itself is that the subject and the observer are both conscious of the fact that an experiment is being performed. It is hoped in the next year that subjects on the [redacted] B who are essentially normal from a psychiatric point of view will be given unwitting doses of the drug for psychotherapeutic purposes. In this way more valuable experiments will probably be carried out in private hospital conditions.

Attempts are being made at present to set up projects with collaborating organizations on the effect of LSD25 on brain metabolism, on the metabolic activities of nerves and on enzyme reactions.

Following are two budgets both to be administrated by me but under separate accounts for ease of administration. Budgets labelled [redacted] represents the anticipated costs B of the project at [redacted] Budget B labelled [redacted] is the bedget which will take care of a second C coordinating psychiatrist, an enzyme project, and a neurophysiological project directly under the principle investigator and unaffected

[redacted]

[redacted] 7-18

administrative policies at [redacted]. If the projects on brain metabolism and neurophysiology to be carried out under the auspices of organizations other than [redacted] are excluded, this will reduce the budget labelled [redacted] approximately $9,000.00.

I shall be very glad to discuss the details of this project and hope that I shall have the pleasure of your continued support.

With best personal regards, I am,

Yours sincerely,

[redacted]

[redacted], M. D.
