Dear Dr. [redacted] C

On 18 August 1954, the research grant to the [redacted] B from the [redacted] for research at the [redacted], will expire. It is anticipated that on 18 August, a small part of the funds granted for the past year will remain unspent.

In conversation, it was suggested to Dr [redacted] and to me that should unspent money remain, an extension of the time limit on the grant might be made, and that the money might then be spent during the period of extension. Dr. [redacted] and I, however, have not received written confirmation of the possibility of such an extension of the time limit on the grant. C

We wish very much that such an extension be granted, and ask that written confirmation of the extension be sent to the [redacted] B nd to us, in order that we may begin to budget the money for the coming year.

MEMORANDUM FOR THE RECORD

SUBJECT: Extension of Time for Subproject 9, Project MKULTRA

1. Due to a shift in the location of certain key personnel in the [redacted] Project, the work will henceforth proceed at a slower pace than anticipated. For this reason it has been decided that the original time limit is now too short.

2. As originally set up, the project will end on 18 August 1954, however, this memorandum will have the effect of extending this date until 18 February 1955 with no change in funds or scope.

Dear Dr. [redacted] ←C

Enclosed, you will find a proposed budget for a possible grant to continue our research studies in 1953-54. The research proposals, as itemized, are three in number and these can be elaborated upon if the Foundation so desires.

It is apparent from our present rate of expenditure that we will have an accumulation of three to four thousand dollars in unexpended balance from the grant allowed us last year. If possible, we should like to keep this in our account and apply it against the possible grant for next year.

In other words, the request for the coming year is approximately $21,000. and the application of $4,000. against this would reduce the actual amount requested this year to $17,000. I discussed this with one of your scientific representatives recently in New York and he thought that this might be agreeable.

We wish to thank you for your past support of our basic research and hope that the Board will see fit to continue their financial aid for research.

Yours sincerely,
