H-B/3 [redacted] Technical Installation

A

1. On 29 November 1954, Messrs. [redacted] and [redacted] proceeded to [redacted] via automobile and began the installation and miscellaneous physical security improvements requested by the above named project. B/3

A

2. Microphones were installed in the second floor conference room, [redacted]'s office adjoining it, and an office on the third floor immediately above [redacted]'s office. The attached sketch will indicate and describe both location and method of installation. Please retain this sketch in our files for future reference.

A

3. [redacted] was well pleased with the installation and expressed his desire for personnel to be familiarized in its operation. [redacted] and all clerical and stenographic personnel there were very thoroughly instructed in the operation of the system. [redacted] in particular (designated by [redacted] to have custody) assured me that he understood the system thoroughly.

A

4. [redacted] and I departed [redacted] on Wednesday evening, 1 December 1954 and returned to our station. B/3

A

5. As you know, the [redacted] Committee was advised at the last meeting of the completion of the assignment. As previously discussed, the installation was accomplished with full consideration being given to destruction of property, length of the lease and other minor considerations. Therefore, it should be noted that the installation made was considered adequate for immediate needs. B/3
