B/3 [redacted]

Covert Headquarters, [redacted] B/3

A 1. On Friday, 16 July 1954, [redacted] called [redacted] and requested B/3 his staff to attempt to locate the headquarters building along lines set out in memo of 16 July 1954. On Monday, 19 July 1954, [redacted] reported that they had been able to locate only two places and in each instance the rent situation was way out of line with the proposed $5,000 per annum.

2. The best of the two places located, a converted row house containing apparently four apartments was for rent at the price of $9,000 per annum clear to the owner, plus a five or ten-year contract. The other place, in poor condition, was for rent at $200 per month but the owner insisted upon a twenty-year least and the restoration of the property after the lease was over.

A [redacted] 3. In view of the above, [redacted] and [redacted] and A discussed the matter on Monday afternoon, 19 July 1954 and it was agreed to request [redacted] to have his [redacted] staff extend the search B/3 to [redacted] and to report the results of this search Monday, 26 July 1954.

B/3 4. It was also proposed that after we receive a report from [redacted] the matter be taken up with a [redacted] Chief of Logistics, or A [redacted] one of [redacted] assistants having knowledge of A real estate matter.

5. In addition, [redacted] talked with [redacted] and [redacted] A stated he believed that the administrative plan could be altered to increase the rental without a complete revision of the project to the extent of approximately $15,000 per year and that he would proceed to start revision of the administrative plan along those lines.

A 6. [redacted] arranged for the [redacted] call Monday, 19 July B/3 to extend the search in the above set out areas.

[redacted] A
