11 October 1954

Memorandum

TO: Chief, Chemical Division, TSS

Subject: Suggestions for Scientific Conference Agenda at [redacted] H-B/3

1. The [redacted] scientists are most interested to meet with you for a discussion about subjects of mutual interest. As far as they are concerned, Tuesday, 26 October would be convenient. If you can definitely meet this date will you contact the writer personally for the time and place of meeting.

B/3

2. The following enumerated items are being offered for your guidance in preparing your material for the forthcoming meeting. It is assumed, of course, that the same queries apply equally to the [redacted] group.

a) What are your fields of interest? A general statement of your Division's GOALS; OBJECTIVES; TASKS; ACHIEVEMENTS; ASSETS; CAPABILITIES; and FACILITIES.?

b) What is your current thinking about possible drug effects on the mental processes?

c) Who are your scientific and technical consultants? Where are they located?

d) What is your present valid information to date concerning the nature and action of chemicals in terms of intelligence potential?

e) How would you desire the setting up of an effective working relationship between scientists of both groups?

f) What are your procurement capabilities in support of [redacted] requirements?

g) What documentary data do you have on chemical agents?

h) What is the present status of TSS's scope and activity in the field of research, development and testing of "special" chemical agents?

i) How can we assist you?

j) Will you participate in and support the proposal for a panel of scientific personnel to meet on matters of mutual interest?
