d. The scope of the Project is research and testing to arrive at means of control rather than the more limited concept embodied in "special interrogations."

5. In a memorandum from [redacted], dated 15 July 1952, OTS declined to undertake the full research responsibility but agreed to undertake certain research discussed with Col. Edwards.

6. The enclosed memorandum for DD/P from ADSI dated 29 August revises the 14 July memorandum to reflect the position of OTS. 7. Mr. [redacted] has seen the memorandum and recommends your concurrence.

8. It is understood that Dr. [redacted] does not want to concur in this memorandum for OTS without [redacted] approval. CSI plans to send the memorandum for DD/I's and DD/A's approval with the statement that the paper is believed to be consistent with the position of OTS.
