Reputable U. S. Psychiatrists

1.

U. S. psychiatrists whose technical background is such as to warrant an approach to them for advice on personnel.

2. You will remember our recent conversation regarding an advisory panel for Bluebird.

3. gave the following information, which I have not yet tried to check:

In my opinion the first approach should be made to OSI already ready to take any steps that you may wish.

4. A fourth psychiatrist has come to my attention through information from of my office; namely, , who is considered by to be a reputable psychiatrist. was a classmate of brother at and is known personally to
