Office Memorandum • UNITED STATES GOVERNMENT

TO : Chief, Administrative Branch, OSI DATE: 14 December 1956

(373)

FROM : Chief, Contract Division, OO

SUBJECT: OSI Contract for Dr. [redacted] - OO/C Case [redacted]

REF : Memo dated 27 November 1956 from Chief, Administrative Branch, OSI

1. The OO/C field representative in contact with Dr. [redacted] has requested that the following changes be made in the OSI contract for Dr. [redacted] bulbocapnine experiments:

a. Paragraph 1 to read

"Compensation. In full consideration for the submission of said report, you will be paid $500 to defray the cost of the experiments to be performed by you in order to obtain material for the said report. Two hundred dollars will be paid you upon your acceptance of this contract, and upon the satisfactory completion and submission of said report you will receive a final $300 payment."

b. Paragraph 2 to be deleted.

2. Our field representative notes that there is no reason for Dr. [redacted] to report these funds as personal income, since the $500 is to be expended by [redacted] University through Dr. [redacted] solely for the purchase, care and feeding of monkeys, and for travel expenses to and from [redacted] State Penitentiary.

3. It has also been recommended by our field representative that the initial $200 be paid to Dr. [redacted] when he himself accepts the contract rather than when the special contracting officer executes it, since this execution apparently can be made only after Dr. [redacted] acceptance.

4. OSI comment on these points will be appreciated.
