MEMORANDUM FOR RECORD

SUBJECT: Distribution of RU-440 ---- "OSI Report on "The Strategic Medical Significance of the Psychogenic Drug, Lysergic Acid Diethyl Amide, LSD-25 and Related Compounds"

1. Dissemination of the subject report was discussed on 11 Mar 55 with Mr. [redacted], Deputy Director of Security.

2. It was recognized that a great part of the report was prepared with unclassified literature as its basis. However, Mr. [redacted] pointed out that the Agency's study of and interest in the subject is not a matter of general knowledge and must be very closely held.

3. It was his recommendation, agreed to by the undersigned, that distribution of the subject report be identical with that given a previous Scientific Intelligence Memorandum on the same subject, No. CIA/SI 101-54, dated 5 August 1954, which was as follows:
