MEMORANDUM FOR: [redacted] A

SUBJECT: Briefing [redacted] on Project ARTICHOKE on 17 June 1952

A G 1. [redacted] called asking for you in connection with a meeting to be held in [redacted]'s office concerning the future of Project ARTICHOKE. He particularly wished to know your attitude concerning the role of [redacted] in this matter.

2. I told [redacted] that I believed your position with regard to ARTICHOKE was as follows:

a. Under the leadership of very little progress had been made toward developing any useful techniques for "Operations."

b. There was a need for further research and further definition of the objectives of such research in the area of Project ARTICHOKE.

G c. Since techniques of special interrogations were of prime use to [redacted] and since [redacted] had established [redacted] to conduct research and development for [redacted], it was appropriate that [redacted] have a large part in any research program for Project ARTICHOKE.

A d. It was not clear whether operational use or operational testing of these techniques should be under the ultimate control of [redacted] or I & SS. Since [redacted] was deeply interested in the project, this interest should be borne in mind in allocating these responsibilities.

G 3. [redacted] had the OSI staff study together with the comments of the various Assistant Directors to whom that staff study was addressed. Apparently, it was only [redacted] who suggested that [redacted] be brought in. Apparently, also, [redacted] has made some kind of a proposal to [redacted] for the future of Project ARTICHOKE. Presumably this proposal which I did not see involves placing the responsibility either for research only or for the entire program in [redacted].

A 4. [redacted] was arranging for a meeting at 1130 on 17 June 1952 for briefing [redacted] on Project ARTICHOKE so that he could make a decision with regard to the future of this project. This meeting was apparently to be attended by [redacted] and possibly [redacted].

5. I told

[redacted]

5. I told [redacted] that I would brief [redacted] about my conversations with [redacted] but he said that he would brief [redacted]

A
