Office Memorandum [redacted] STATES GOVERNMENT

TO : [redacted] A

DATE: 25 April 1955

FROM : Chief, [redacted] Office, OO/C

104-55

A/B, IV, 211, [illegible]

SUBJECT: [redacted] Comments on Visit with [redacted] C

1. I had dinner with [redacted] 22 April 1955, and he wanted this information sent to you.

2. [redacted] presently on loan to the [redacted], where he has a title of [redacted] arrived in [redacted] this past week for the purpose of locating a home for his family. [redacted] has been on loan to the [redacted] for the past two years and will return to the [redacted] 1 July 1955, where he will take up his former duties in the [redacted] C

3. [redacted] has an M. S. degree in Chemistry, an M. D. degree and is a full-fledged Psychiatrist. [redacted] speaks of him as the best [redacted] in the field. C

4. [redacted] has been working in Washington, D. C. on LSD-25 and gave these findings of his to [redacted]

a. LSD-25 can be detected - it fluoresces under ultra-violet lights. Using the fluorometer, you can make a chemical deduction in the blood and spinal fluid. This detection can be done to .0002 of a gamma in a period of 30 seconds.

b. 40 percent is excreted in the urine.

c. It passes the blood brain barriers.

5. [redacted] feels that [redacted] should be included in the [redacted]. He says, with [redacted] as far as his department is concerned it would be complete because it would furnish him with a [redacted] has worked with [redacted] in the past and knows his ability and [redacted] upon [redacted] return to the [redacted] will work with him again on his problems. C

[redacted]

6. Let me know your reaction to this as I feel that [redacted] should be informed of it. If you haven't any biographic material on [redacted] please let me know.

7. The doctor from [redacted] I believe his name is [redacted] who was at the [redacted] when you were there, is sending [redacted] a new "thorazine" which has never been tried clinically. He has asked [redacted] to experiment with it which [redacted] has agreed to do.

8. [redacted] representative was at the [redacted] this past week and has made arrangements with [redacted] whereby all new stuff in [redacted] field will be sent to him for research.

9. The photostats were sent to you by pouch on 23 April 1955.

10. The original four, [redacted] send their regards. I assure you that their enthusiasm has not lessened in anyway. It will be of real interest to me to see how they will handle any problems that you may send on to them.

11. I am enclosing, herewith, a report on "Pharmacology of NP-207" which was sent to [redacted]

[redacted]
