SUBJECT: [redacted] - Dolitrone

1. I saw [redacted] for about 30 seconds on 22 April 1955. He was on his way to the airport to enplane for [redacted] where he is giving a series of five papers. He wanted me to give you this information: C

> "Tell our friend that Dolitrone is a complete amnesia in small doses. I gave a patient, a man of 40 years of age, weight 190 pounds, who did not respond to a 'local' twelve cc's of two and one half percent solution intravenously. The doses given were one cc every minute for 12 minutes, and he (the patient) didn't know what happened."

2. [redacted] seemed most enthusiastic about this experiment. C
