1. AD/SI	2505		13 Mar	[redacted]	Most question. Would need to know more about him. Principle points are: (1) Be sure that he is a consultant to "Project Artichoke" if we do want him. (2) Be sure that we are cut in on things like this in the future. (3) Establish an integrated program on the subject rather than separate research activities under D & S, etc. To accomplish the above [redacted] must be brought into the picture as a part of the over-all program or else excluded completely from it. [redacted] supposed to talk to you about this at some time or other.
