21 November 1951

MEMORANDUM FOR THE RECORD

SUBJECT: [redacted] C

1. [redacted] advised [redacted] at 0930, 19 November 1951, that [redacted] of [redacted] was in town and had contacted [redacted] on the subject of Project Artichoke. [redacted] quoted [redacted] as stating that he had heard of certain CIA reports on the subject and would like to talk either to [redacted] or to someone in the Agency who might know about these reports.

2. [redacted] was advised that he should ask [redacted] to see [redacted] at 11:00 a.m., this date. This action was taken because [redacted] had mentioned to [redacted] that he would be contacting the [redacted] and [redacted] on the subject and would also like to cover CIA while he was in town.

3. [redacted] called [redacted] the [redacted] for Project Artichoke. [redacted] had previously advised CIA that [redacted] was working on a special project for the [redacted] on drugs. [redacted] agreed that it would not be desirable for [redacted] to be inquiring around town, probably with some of our own contacts, unless he was properly controlled. [redacted] agreed to see [redacted] at 10:00 a.m.

4. [redacted] then attempted to contact [redacted] of the [redacted] but in his absence called [redacted] recalled to [redacted] our previous advice on [redacted]'s activities and our attempts to coordinate with him. [redacted] thanked [redacted] for the information that [redacted] would be in town and contacting [redacted] personnel today and agreed to take appropriate steps.

5. With the arrival of [redacted] at 10:30, [redacted] explained the background of the [redacted] activities and the need for coordination. It was recalled that [redacted] of the [redacted] had on several occasions referred matters connected with research on drugs to CIA and the other services. This was a logical outcome of his not being briefed on Project Artichoke and not knowing of the present setup. [redacted] is to carry on active work in connection with drugs for interrogation purposes it is essential that his activities be coordinated and the best mechanism would probably be through [redacted] also advised [redacted] that we had learned of [redacted] and [redacted]'s visit to [redacted] and their inquiries there which were referred to us by [redacted] This is most sensitive because we have

H-B/3 indicated to [redacted] representatives on two separate occasions that there is no research on this subject going on in the U. S. Government but we are very anxious to learn of anything the [redacted] may know about the subject. [redacted] also advised [redacted] that this is one of a number of contacts [redacted] has made at various points in the Agency attempting to find out more about our interest and activities in this field.

A C C

6. [redacted] agreed that we had done the right thing in agreeing to see [redacted] at 11:00 this morning in order to learn of his specific inquiries and to establish a point of contact within the Agency. [redacted] also agreed to contact [redacted] immediately and investigate the best manner in which their projects could be coordinated within the [redacted] and through [redacted] with CIA.
