at 0930. General conversations on [redacted] interests in Artichoke matters resulted. [redacted] mentioned that [redacted] a new idea for quick screening. Combining the Pinkerton card method with a simple polygraph technique (with squealer arrangement) offers rapid screening possibilities. Idea discounted by [redacted] but believed to have merit by the rest. [redacted] will see [redacted] people on his way back to [redacted] to discuss it. [redacted] also suggested that the whole Artichoke problem be given to special groups to study and recommend.

2. [redacted] A H

Designees at 2:00 p.m. Discussed future management of Artichoke in [redacted] Agreed that matter should be given to [redacted] study and recommend.
