MEMORANDUM FOR: [redacted] 00

SUBJECT : Special Arrangements for Project Artichoke

H-B 3

1. As I have indicated before, [redacted] is running special tests for us on an operational matter. A [redacted] representative stated yesterday that they could use some outside assistance of a special nature.

2. The problem is to examine some single crystals of a substance in order to obtain spectrophotometric curves which might indicate the true nature of the substance. Examination of single crystals with normal spectrophotometric equipment is not practicable, however, [redacted] has learned of the existence of a microscopic attachment for the spectrometer which is believed to be suitable for examination of single crystals.

3. The equipment is manufactured by the [redacted] It is believed that [redacted] (either the [redacted] or a laboratory of the [redacted] has an experimental model of this equipment which they are using to determine the spectra of individual blood cells. The [redacted] representative does not feel that he can obtain access to the equipment except with some outside assistance.
