9 May 1951

MEMORANDUM TO THE FILE

SUBJECT: Substantive information received from [redacted] at meeting on 8 May 1951

H-B/6
B/3

1. In further reference to the research with drugs, [redacted] mentioned some promising results obtained by use of the drug Mescanine, which is obtained from the Mescal plant. [redacted] also obtained

2. With reference to Anabasin, considerable work has been done on the pure alkaloid through a German scientist who was working for the Russians at one time. ~~A large quantity of the pure alkaloid was~~ obtained. The results have merely confirmed the fact that it is an excellent insecticide. No narcotic effects on human beings were observable.
