6. When [redacted] reaches "progress report of evaluation," create a committee of judges and appraisers.

Tuesday, 26 May 1950

Two hour interview with [redacted] re activities during war B/6 and location of "special file", which he believes is stored in "archives." Note: See special memorandum re interview with [redacted] B/6

Monday, 29 May 1950

Talked to [redacted] to contact [redacted] re B/6 assignment to OSI.

Wednesday, 31 May 1950

[redacted] came to the office after an interview with [redacted] A Had two hour interview re activities during war. He offered access to "special file" referred to by [redacted] as being in archives.

[redacted]

Wednesday, 31 May 1950

Interview with [redacted] (see Note). A

Thursday, 1 June 1950

A [redacted] starts working on narco-analysis bibliography.

Friday, 2 June 1950

A [redacted] says [redacted] is not yet cleared and therefore does not have access to all of the Nurnberg and other trial material. B/6 [redacted] Parts of the classified sections of the trial in [redacted] does not cover this subject. [redacted] has not yet recovered from heart attack. Seems advisable to postpone contact indefinitely with [redacted] insulin or electric shock therapy and other phases of subconscious isolation.

After adequate cross checking, contact with following should be considered:

B/6 [redacted]

Friday, 2 June 1950

B/6 [redacted] could not keep appointment so had incidental interview with [redacted] No mention of narco-analysis, but better list of [redacted] and their interests in administration. B/3

Tuesday, 6 June 1950

B/6 Interview in [redacted] with [redacted] re activities during war. He has full-time program with [redacted] but is eager to cooperate with CIA. He knows of enemy espionage and counter espionage during war. B/3 [redacted] and he cooperated. [redacted] did not indicate any familiarity with the latest information on subconscious isolation, in fact he has not yet

[redacted]

[redacted]

B/6 met [redacted] although he knew [redacted] during the war. He will give us names of past contacts and bring a roster up to date by adding new names which are available through his [redacted] contact.

Thursday, 8 June 1950

A [redacted] and [redacted] met. [redacted] has not yet received copy of requirements which were submitted through [redacted]. [redacted] says the original requirements were altered, promises copy of revised requirements. [redacted] again promises appointment with [redacted] early next week. [redacted] going on leave so [redacted] will proceed. [redacted] and [redacted] did not reveal any connection between [redacted] for liaison between [redacted]. Agreed that [redacted] and [redacted] would have interview with [redacted] regarding interrogation of [redacted] B/6

—

B/6 A 3:30 p.m. Interview wi[redacted]

[redacted] has the most complete file on narco-analysis seen to date. B/6 Has an extensive table of drugs used by the Russians, including Harmaline. There was emphasis on narco-analysis with little on hypno-narco-analysis. However, he is definitely concerned with psychiatric interrogation. From the treatment of psychiatric cases, the group finds that the patient remembers what went on during the period of narcosis.

Discussed the [redacted] interrogation. Th[redacted] has arranged B/6 to place [redacted] in th[redacted] for 48 hours. [redacted] says the [redacted] are not especially interested and will not be included in the interrogation. Interrogation will be covered B/3 by two [redacted] technical doctors [redacted] and [redacted] during the complete physical examination and [redacted] will be brought in during the physiological testing and during subsequent interrogation. The Russian use of duress and narco-analytical methods will be co[redacted] Political and other interrogation will be conducted at a later date. [redacted] has been advised of the advisability to exclude other CIA representatives during the preliminary testing.

B/6 [redacted] was very much annoyed by [redacted] memo. requesting information [redacted] assured him that a reply would be limited to professionals A and that [redacted] and [redacted] would be the direct contacts for CIA.
