Re: Proposed Use of ARTICHOKE for [redacted] H-B/3

1. Background. [redacted] are a father-son combination who have worked as [redacted] for approximately 2 years. [redacted] B/3 F [redacted] he was picked up (11 September ~~xx~~ 56) and since that time he was subjected to interrogation in an effort to clear up a number of discrepancies which clutter his explanations.

2. Present Status. After prolonged interrogation, there is still no satisfactory explantion about the initiation, duration, reasons for and content of [redacted] which appears to be the crux of the problem. [redacted] has resorted to hostile interrogation and to [redacted] an interrogation aid, but to little avail. [redacted] is pessimistic about the prospects of breaking [redacted] by conventional means and has repeatedly asked that a team be dispatched to [redacted] to administer ARTICHOKE. B/3 G B/3 F

3. Comments. [redacted] B/3

[redacted]. Although the [redacted] operation is no longer considered viable, it is believed that we should now concentrate on getting as much truth as possible from [redacted] before eventually releasing him in order to (1) Exercise the maximum amount of control over him; (2) [redacted] effectively; (3) Learn as much as possible regarding [redacted] as regards this case.
