A/B, 2, 29/3

TO: Chief, Security Research Staff DATE: 14 April 1953
FROM: Chief, Technical Branch B/3
SUBJECT: [redacted]
REFERENCE: Memorandum from Chief [redacted] to Chief [redacted] dated 31 March 1953 G
with the specific Subject [redacted]
B/3

A 1. This memorandum, signed by [redacted], reflects that [redacted] status apparently was to be changed from confinement to rehabilitation and that in the future, after certain necessary requirements had been accomplished, B/3 [redacted] was to be released in some [redacted] country and completely F divorced from all contact with this Agency.

A 2. In connection with the above, on 2 March 1953 the professional opinion of [redacted] and who is totally familiar with the [redacted] case, was obtained as to whether or not [redacted] could be used in certain operations in [redacted] or possibly B/3 turned loose. At that time [redacted] stated in his opinion that he felt that [redacted] could be turned loose or used operationally and that this would not, from an ARTICHOKE point of view, jeopardize Security and/or the Agency operations.

B/3 3. Since it appears that [redacted] now is to be turned loose after certain rehabilitation has taken place in some [redacted], it would A appear that [redacted] professional opinion would continue to hold in this instance.

4. It is the opinion of the writer in view of the proposed disposition B/3 of [redacted] and in view of [redacted] opinion that SO should interpose no objection to the proposals as set out in the above referred memorandum.

A 5. It should be noted for the record however that it would be of great interest to ARTICHOKE if any individual, who is cognizant of the facts in the case, could question [redacted] again and test him in a subtle manner concerning B/3 possible amnesias and his present views in connection with the ARTICHOKE techniques.
