For your information I am enclosing copy of a report made to the Committee on Drug Addiction and Narcotics, NRC., on the "Addictiveness of New Synthetic Analgesics."

Please note that I-9-2 (NIH-7607) has definite sedative characteristics, according to the evaluations made by our patients.

We hear frequently from Doctor Isbell. He is now in England (Address: 51 Kensington Court, Apartment 6, London, W. 8, England).

With best regards,

Sincerely yours,

H. F. Fraser, M.D.
Associate Director
