Lexington, Kentucky

Dear Dr. Isbell:

I am very happy to hear that you will be in Washington soon. I have set aside some time in the afternoon of February 7, so if you will stop here at your convenience, we can go into the details of some of this work. I have collected a considerable amount of material that may be of interest to you.

As you indicated in your letter, I am most interested in a preliminary study at least on the K-302, since progress in the extraction depends upon confirmation of the animal tests. In the future I'll try to improve the form and content of the pharmacological report on the various materials.

The structural formula in question is as follows:

I have some other information about this substance but I would rather hold it until we can discuss it when you are here.

Sincerely,

B-S
