[redacted]

7 March 1951.

MEMORANDUM FOR THE RECORD

SUBJECT: Informal Discussion with Chief, [redacted] Regarding "Disposal"

1. Chief, [redacted] discussed the subject of "disposal" with [redacted] this date, at which time the following items were discussed:

a. [redacted] The definition of "disposal," in brief, was understood to mean the providing of a facility to keep the "disposed" person in security until his knowledge of [redacted] operations is no longer of value to the enemy.

b. These people will consist of:

(1) Blown agents.

(2) Exploited agents.

(3) Difficult defectors who may wish to redefect.

(4) Defectors from various agent-training programs.

c. Chief, [redacted], mentioned that in considering a solution to this problem, the idea of isolation of these people in any one place or in a number of places was difficult, in that sooner or later they would rebel and present complex problems. It is his desire that [redacted] investigate some method of treating such people in a way that would cause semi-permanent amnesia for a period of approximately one year.

d. [redacted]

X Drugs, Amnesia-producing

[redacted]

[redacted]

C/I [redacted] Such a study would determine the feasibility of further development of drugs for this purpose.

2. [redacted] accepted the above information with the understanding that a formal request would be submitted by Chief, [redacted] to [redacted] via [redacted] in accordance with [redacted]

3. It is recommended that this matter be discussed informally with the Chief, Medical Division; with the Chief, Medical Division, [redacted] possibly with consultant [redacted] and also with [redacted]
