H 1. On 29 March, [redacted] and I had a conference with [redacted] A
A of the Security Office. [redacted] had us read a lengthy memorandum to the Director
of Security, which outlined the background of the history, insofar as it is
F/I known, of the use of the isolation technique, both in [redacted] and in the US.
A The latter part of the memorandum gave the questions posed by [redacted] and an-
C swers provided by Dr. [redacted] at the 17 March conference. [redacted] C
had already read and concurred in the memorandum. It was an excellent job.
A No recommendations were included in the memorandum. However, [redacted] was in
C the process of drafting a recommendation to the effect that Dr. [redacted] and
his clinical psychologist and medical secretary, be placed on a contract basis
to carry on experiments in this field, after they have been cleared for Top
Secret.

A 2. [redacted] stated that he had taken a copy of the memorandum to
A [redacted], who is now assistant to DD/P for [redacted] affairs, [redacted] A
in turn, had passed the memorandum to [redacted] who is a member of the A
G [redacted] Staff, but who works for [redacted] on special projects. While we A
were in the office, [redacted] called [redacted] to advise that he had just A
finished reading [redacted] memorandum to the Director of Security, and thought A
it of paramount importance for the Agency to act quickly. [redacted] also men- A
A tioned that Dr. [redacted] had been brought in on the picture, probably by Dr.
A [redacted] felt that a meeting should be called soon of the inter- A
ested components of CIA, so that an Agency position could be adopted. [redacted]
was still very reluctant to bring TSS into the picture, at least at this time.
A [redacted] is leaving next week for a five-day trip through the [redacted] He hopes I
that, prior to his departure, he will be able to report some progress in co-
ordinating this project internally.
