MEMO FOR FRIDAY, 20 May 1955

Dr. [redacted]

[redacted], Security Office, advised me that he had had a meeting yesterday with a fairly large group, including [redacted] Dr. [redacted] of TSS, and Dr. [redacted] Medical Officer. He stated that the group had reached no conclusion because of the stand which had been taken by Dr. [redacted] to the effect that such an operation was immoral and inhuman. [redacted] is planning to set up a meeting of most of the individuals who were at the last meeting except Dr. [redacted] on 1 June. He will invite Dr. [redacted] to address this group. [redacted] is also planning to bring several outstanding private experts in related fields from elsewhere in this country to attend the meeting, in support of [redacted] project.

cc: Index

Does [redacted] Project Office approve of these immoral & inhuman tests? I suggest that all who are in favor of the above "sanctioned operations" volunteer their bodies for use in Dr. [redacted] "noble" project.
