Subject: SI and H Experimentation, 5 March 1952

On Wednesday, 5 March 1952, in Building 13, Room 20, SI and H experiments were carried on with Misse[redacted] by [redacted]

It should be noted at this time that [redacted] has withdrawn from the experimental work for personal reasons. No explanation was requested of [redacted] leaving since our work is on a voluntary basis. Her departure is regrettable since she was developing into an excellent subject.

A

[redacted] and [redacted] are acquainted with the general work, including the motion pictures, and the motion pictures were shown to them with a discussion of the good and bad points in both the technique and the film.

This consumed the major portion of the night's time, but in order to make certain that both [redacted] and [redacted] were still operating effectively from a hypnotic point of view, both were run through a series of simple hypnotic control tests and both responded excellently.
