Subject: SI and H Experimentation, 4 March 1952

On Tuesday, 4 March 1952, in Building 13, Room 20, SI and H experiments were carried on with Misses [redacted] and [redacted] by Messrs. [redacted]

Since the films for the training film had been developed, the entire evening was devoted to studying the films and making the necessary notes for retakes or different approaches.

A

In the opinion of [redacted] and the writer, the films are valuable in that they show some technical errors and clearly indicate that in some instances, the hypnotic sequences were not demonstrated as effectively as we thought necessary. Between one-quarter and one-third of the film is very good and can be used in the final production. No technical experiments were carried out at this session.
