Subject: SI and H Experimentation, 3 June 1953

On Wednesday, 3 June 1953, SI and H experimentation and research was carried on in Building 13 by [redacted] and [redacted] and using [redacted] as subjects.

A

The three subjects were quickly put under hypnosis upon their arrival. [redacted] then expressed the desire to work with one of the subjects alone. Keeping in mind that whatever method [redacted] preferred to use would serve him best, [redacted] and [redacted] proceeded to Room 24 where they worked until practically 8:30 PM.

[redacted] was again induced into a deep state of hypnosis and regressed back to her classdays in high school some years ago. Earlier in the evening she had expressed a desire to recall the contents of a valedictory address which she made at that time. Through regression, she was able to recall approximately one-third of the address.

The session was concluded at approximately 9:00 PM.
