Subject: SI and H Experimentation, 6 January 1954 (4)

On Wednesday, 6 January 1954, SI and H Experimentation and research was carried on in Building 13, Room 20, by Messrs. [redacted] and using the following subjects: Misses [redacted] and [redacted].

A

In view of the absence of a number of the regular subjects, extensive work was not carried out during this session; however, slow inductions were run on all present and in the opinion of the writer, both Miss [redacted] and Miss [redacted] reached considerably greater depth than they had previously.

A test of hallucinations invovling optical and taste was tried post-hypnotically but without success, although some evidence was present that indicated partial acceptance of the PH suggestion.
