[redacted] A/B, 5, 134/1

Chief, Contact Division
ATT'N: Scientific Branch
[redacted] G
[redacted] H-B/3
SOURCE: [redacted] C

9 April 1952

C A 1. During my visit this morning with [redacted], he told me that he is now ready to go on the psychogalvanic machine. Both [redacted] and [redacted] have knowledge of this project.

C 2. At the present time, [redacted] chief problem is to get some guinea pigs for his project, for which the ideal type would be either a scientific or a professional man, unacquainted with [redacted] and having no knowledge of [redacted] background or field. [redacted] suggested that it might be well if these people (he would like a minimum of five) had clearance from our Agency.

C 3. I am sure I would be able to get five people for [redacted] from among our acquaintances here in the [redacted] who have been cleared either for contact or for hire.

C 4. I told [redacted] I would be glad to be one of his first guinea pigs, contingent, of course, upon approval from your Headquarters.

C H-B/6 5. In a recent visit with [redacted] was informed that his associate, [redacted], has not yet been cleared. I was quite sure [redacted] had been cleared, and immediately upon returning to my office, I checked our files and found that on 19 May 1950, name check was requested; on 19 July 1950, we were advised that he was placed in an "approved-caution" category. I believe that if this rating could be upgraded, it would be an advantage to [redacted] You might please notify [redacted] A C of this information.

6. I shall appreciate your suggestions and approval.
